

FOLIO

Interface®

K-12 School Building

Show off that school pride! Flooring is a unique way to bring color into the built space, support wayfinding, and deliver a consistent “branded” look & feel. This FOLIO from the Interface Design Studio illustrates how our modular flooring—carpet tile, LVT, and nora® rubber—works together to achieve those goals throughout an entire school building.

Here's what you'll find as you flip through this FOLIO:

- Two color-grounded product palettes
- Floor layout suggestions
- Rendered and finished floor plans

Follow the design process from start to finish with a suite of products that can work in virtually any area.

Interface Design Studio

Do you need planning support? Looking for a design partner who understands built space branding and wayfinding? The Interface Design Studio is a fully complementary solution that can help at any point in the process. With a deep knowledge of Interface products, our team of trained concept designers focuses on the foundation of every design project — the floor.

Contact your rep to get started.

Carbon Neutral Floors™

When you choose Interface flooring, you're fostering a more sustainable environment to promote learning. This is because all of the flooring products that we sell—carpet tile, LVT, and nora rubber—are carbon neutral. And through our ReEntry® program, Interface reclaims used carpet tile and LVT to turn into new flooring over and over again.

Interface®
