FOLIO | NY+LON Streets™ Collection
Concrete & Coral

FOLIO: Interface Design Studio has created a grouping of imagery that shows NY+LON Streets Collection in a color palette that looks beautiful in living and resimercial environments as well as in a variety of spaces across multiple segments. These images demonstrate both aspirational design capabilities and practical application within a space.

Also included is a color placement guide, which shows the position and percentage of hues of each product colorway--serving as a quick and helpful visual reference for customizing color.
