FOLIO | NY+LON Streets™ Collection
Slate & Blue

FOLIO: Interface Design Studio has created a grouping of imagery that shows NY+LON Streets Collection in a color palette is a perfect fit for education but works well in a variety of spaces across multiple segments. These images demonstrate both aspirational design capabilities and practical application within a space.

Also included is a color placement guide, which shows the position and percentage of hues of each product colorway - serving as a quick and helpful visual reference for customizing color.
