

STUDIO FOLIO

K12 Education I

Interface®

FOLIO: We offer a portfolio of nora® rubber flooring, LVT, and carpet tile and consult with you to match design and performance to every square foot of your facility. Interface Design Studio has created a group of supplementary assets that show how our system of products can be used in a variety of spaces demonstrating design flexibility, branding, and wayfinding capabilities in any space.

All The Extras

Interface Support Services

We're here to help from product design and floorplan layouts to installation, maintenance and more.

Interface Design Studio

Help create custom colors and styles, as well as create floorplans and other visualization tools

Interface and nora Technical Services

Available for consultations before, during, and after flooring installation, answering questions about subfloor testing, moisture abatement and more

Develop a comprehensive maintenance plan to ensure a long life on the floor

On-site consultations for installation or maintenance issues

Reclamation Programs

Interface's ReEntry Program is available to help you responsibly dispose of used flooring and installation waste

nora's Construction Waste Take-Back Program allows for the return of NEW waste and scrap material from installation

Stairtreads

nora stairwell solutions withstand heavy traffic, enhanced safety, and make a good impression even after a long period of use. Pair walk-off products in entryways or stairwells to complete the perfect floor.
