Desert Scapes Collection

Interface®

This FOLIO from Interface Design Studio illustrates how our flooring system—including nora® rubber flooring, LVT, carpet tile, and vinyl sheet—can support the demands of key healthcare spaces in visually interesting ways. You will find flooring design ideas that include product aesthetics and color palettes inspired by nature and that keep some of our favorite healthcare products in mind. These aspirational designs meet the performance needs of healthcare facilities and will carry well into the future.

Whether you're in the early planning phase of a new project or looking for design support in the middle of a quick renovation, the Interface Design Studio is here to help with our fully complementary solution. All it takes is a conversation with your Interface or nora by Interface rep to get started.
