

Our portfolio of products – carpet tile, LVT, and nora rubber work together for a flooring system that will perform in your most demanding spaces. Whether a corridor or classroom, our flooring solutions are designed to match design and performance characteristics to every square foot of your facility.

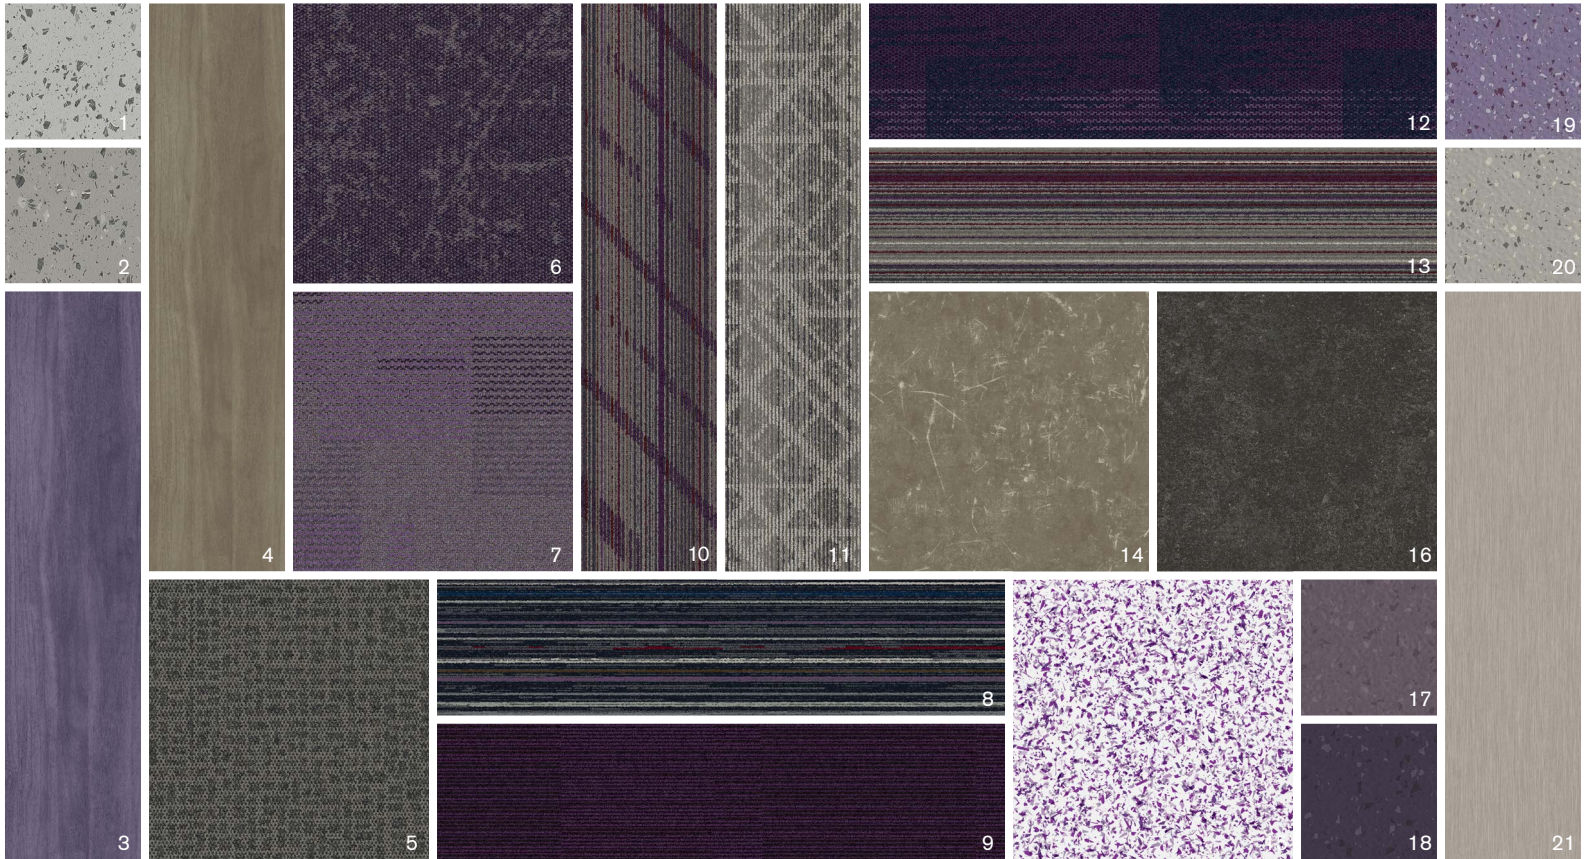

Need product fast? QuickShip offers hundreds of our most popular flooring options available to ship within just 10 business days, including carpet tile, LVT, and nora rubber. Our local team of experts will provide curated solutions in a range of price points that create a beautiful, and cohesive look throughout your healthcare space.

Delivering the lowest carbon footprint in the industry, we are dedicated to running our business in a way that reverses global warming and paving the way for other companies, so together we can create a climate fit for life. Carpet tile, LVT, and nora rubber flooring products are carbon neutral across their full product life cycle through our third-party verified Carbon Neutral Floors™ program.

Interface's ReEntry program positions us as the only flooring manufacturer that has a 3rd party certified, closed loop recycling program, through which we take back Interface carpet tile and Sound Choice LVT products. Our Construction Waste Take-Back program also makes it possible to return waste and scrap material from new installations of nora rubber flooring. That material can be reused in the production of new nora rubber floor coverings, down-cycled into other products or used to generate energy.
