SMART, EFFICIENT, AND BUILT TO LAST

Seamless Installation & Design Flexibility

Interface modular flooring tiles are designed for effortless installation with systems like TacTiles®—our no-glue solution that reduces VOCs and waste. Choose from multiple sizes and patterns to create tailored designs that fit your needs while optimizing material usage.

Cost Efficiency, Built-In

Reduce hidden costs with modular tiles—no roll sizes, no wasteful cuts, and an average of only 3-4% waste compared to broadloom's 14%. Our selective replacement system minimizes disruption, allowing you to replace flooring in stages and save up to 50% on replacement costs.

Durability You Can Count On

Every product is backed by a 15-year warranty, combining innovative features like Intersept® mold protection and Protekt2™ stain resistance for unparalleled longevity. With modular carpet, you're investing in a solution that performs and saves in the long run.

DESIGNED FOR PERFORMANCE AND PEOPLE

Innovative Fibers for Vibrant, Sustainable Style

All Interface carpet tiles are made from 100% solution-dyed nylon—engineered for vibrant, fade-resistant color without the need for water or harmful chemicals in production.

The Power of Integrated Systems

Interface tiles span a variety of sizes and textures, enabling endless creative possibilities. Our modular designs seamlessly integrate with LVT for holistic flooring solutions without transition strips, redefining design flexibility.

Health-Conscious Choices

Our Intersept[®] treatment guarantees mold protection and uses no halogens, heavy metals, or harmful chemicals. It's EPA-approved for safe use, ensuring healthier spaces for your guests and teams.

SUSTAINABILITY & END-OF-LIFE SOLUTIONS

Transparency at Every Step

Sustainability comes standard. With third-party certifications and 99% renewable energy powering our U.S. manufacturing, Interface delivers flooring that's both high-performing and environmentally conscious.

Recycling Made Simple with ReEntry[®]

Through ReEntry[®], we reclaim and recycle used carpet tiles and Sound Choice[™] LVT, keeping valuable materials out of landfills. As North America's only third-party-certified flooring recycling program, we set the benchmark for responsible end-of-life solutions.

Smarter Installations for a Smaller Footprint

TacTiles[®] eliminate the need for adhesives with carpet tiles, cutting installation waste by 90%. Combined with modular flooring's reduced waste profile, this innovation ensures your project leaves a lighter environmental footprint.
