

# Electrostatically Dissipative (ESD) floor systems for Static Control

## Performance Benefits:

- Options available for raised-access floors
- No measurable off-gassing per ASTM E595 standards
- No coatings does not require a finish - ever
- Dimensionally stable
- Chemical and stain resistant
- Static resistant in accordance with ANSI/ESD S20.20
- Conductive adhesive systems solutions for heavy rolling loads

## Sustainability Benefits:

- Contributes to better indoor air quality with products that are GREENGUARD Gold certified
- Third party verified carbon neutral throughout its entire life cycle as part of Interface's Carbon Neutral Floors program

nora is a global leader in the design and production of high-performance rubber flooring solutions. We can help you match performance characteristics to every square foot of your facility.

And, our technical support team can consult with you before, during and post-installation. They can also as help develop a maintenance plan that extends the floor's life and lowers the total cost of ownership.
