Pepper, 5319 Spikenard, 5320 Sassafras

The nora® QuickShip program offers an array of norament® and noraplan® products in a variety of color and product combinations, including nora® nTx and nora® cold weld. All items included in this program are available to ship within **15 business days, at a maximum order quantity of 6,458 ft² (600 m²).**

You need more than a floor. You need a supportive space that works to improve operations, efficiencies, health, safety, and wellness. Manufactured in Germany for over 70 years, nora rubber flooring drastically reduces maintenance, absorbs noise, provides added comfort underfoot, and with a functional life cycle that lasts for decades.

# noraplan **environcare**™

A changing base color consisting of three harmoniously matched color components and characteristic granules in a smooth surface for heavy traffic areas. Some colors also available with nora® nTx pre-applied adhesive backing.

# nora<sup>®</sup> cold weld

nora<sup>®</sup> 1-component cold weld was developed for color-matched welding of nora<sup>®</sup> floor coverings. Welding norament<sup>®</sup> and noraplan<sup>®</sup> floor coverings is optional, as nora rubber flooring does not contain any plasticizers so there is no shrinking after installation. Welding is recommended for special applications such as installation on moisture-sensitive subfloors; areas with permanent intensive wet cleaning; labs, operating rooms and other areas with specific hygienic requirements; vertical external corners; and when specified.

# Key Advantages

The high density and dimensional stability of nora rubber flooring stands up to the heaviest traffic and delivers durability and a functional life cycle that spans decades.

**Reduced Maintenance:** Designed to reduce the need for frequent cleaning, the extremely dense, nonporous surface of nora rubber flooring repels common chemicals, liquids, dirt, and bacteria. nora flooring offers chemical-free cleaning that entirely eliminates the need for waxing, stripping, and coating. In fact, it can be cleaned with little more than tap water.

**Underfoot Comfort:** Reducing musculoskeletal pain, nora rubber flooring provides added cushion that eases the stress of extended periods of walking and standing. This means less fatigue and increased productivity.

**Acoustics:** The attenuation of unwanted ambient noise helps create a quieter environment that supports important outcomes in your facility.

**Safety:** Exceeding coefficient of friction (CoF) regulations, our slip resistant nora rubber flooring greatly reduces the likelihood of slip, trip, fall and fall-related injuries, especially in high foot traffic spaces.

# Sustainability

**Sustainability:** nora actively maintains a balance between economy, society, and environment.

**Carbon Neutral Floors™:** In addition to our sustainability related product certifications, nora rubber flooring is 3rd party certified carbon neutral throughout its entire life cycle as part of Interface's Carbon Neutral Floors™ program.

Offered as a standard to every customer, at no extra cost, the program helps you meet your own sustainability goals. We know the impact of your floor covering on climate change. With Carbon Neutral Floors™ we support you in reducing your personal CO<sub>2</sub> balance.

# Service Level Promise

## **QS** nora® QuickShip Guidelines:

- Maximum order quantity of 6,458 ft<sup>2</sup> (600 m<sup>2</sup>)
- Ships within 15 business days
- Product size standard as published
- Minimum Order Quantities
  - norament tiles – sold per tile; one tile minimum
  - noraplan rolls – sold per roll; one roll minimum
  - noraplan tiles – sold per box; one box minimum
  - nora cold weld – sold per unit; one unit minimum
- No overage
- No holds
- No allocations to an order for more than 48-hours
- Inventory allocated upon credit approval
- Please consider transit times for shipments to Latin America and Canada
