

Aerial Squares AE310, AE312

Interface®

A view from above gives us the unique opportunity to witness connectivity. The web of connections fascinates and assures us. In Aerial, a simple neutral palette travels new paths when several hues are tangled together for each colourway. The way the shades shift in seemingly endless movements from one tile to the next is provocative and stirs attention.

The construction of AE310™ recalls the warp and weft of a hand-woven textile while AE312™ adds strands of colour to light up that texture. The Aerial squares fit together effortlessly with the rest of the collection, creating a network of design possibilities to trace and discover.
