may have on the environment  
by the year 2020.

# Architectural Plans<sup>™</sup> Collection

**Interface<sup>®</sup>**

Architectural Plans™ Collection

It all begins with a blank space, measurements of length, width and thickness. From there, your grid begins to take shape. Your blank space becomes dimensional. A concept is born. Your space begins to take on a personality, a function. Your space has hard walls, open air, windows, light details. More details than any layman can ever imagine. The idea is set to paper; your plans are complete. Fill them with the Architectural Plans Collection, two patterns, 12 neutral colorways in warm and cool tones. Architectural Plans can be installed alone; however, they work well together with a natural, progressive build in texture and pattern. Suitable for all market segments.

## Specifications **i2**

Modular, 50cm x 50cm	1465202500
Backing System	GlasBac® Tile
Yarn Manufacturer	Universal
Yarn System	Post-Consumer Content Type 6,6 Nylon
Color System	100% Solution Dyed
Construction	Tufted Textured Loop
Lifetime Antimicrobial	Intersept®
Soil/Stain Protection	Protekt2®
Pile Thickness	0.100 in., 2.5 mm
Pile Density	6,120
Total Recycled Content	61-66%
Indoor Air Quality	CRI Green Label Plus# GLP0820

NON DIRECTIONAL

Why Our Modular Carpet?

**i2® Modular Carpet**  
*Minimize Waste & Save Money.* Interface's i2 styles have mergeable dye lots. That means i2 tiles from different dye lots always blend with tiles of the same color, even when individual tiles are selectively replaced years later. This minimizes the need for attic stock and saves money. And i2 styles that install non directionally generate an average of only 1.5% installation waste as compared to 3-4% for typical modular carpet and an average of 14% for traditional roll carpet.

**Cool Floor™**  
*The Low Carbon Option.* Help stop climate change. ALL Interface modular flooring sold in North America is third party verified climate neutral Cool Floor. We start by using low-carbon materials and manufacturing processes, then Cool Floor zeros out all remaining greenhouse gas (GHG) emissions associated with the entire life cycle of your flooring, from raw material extraction through use and recycling.

**TacTiles®**  
*No Glue Installation.* Our revolutionary TacTiles installation system eliminates the need for glue, adhering tiles securely together to form a floor that “floats” for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives.

**Intersept®**  
*Mold Protection.* Our proprietary preservative, Intersept, protects our modular carpet against mold growth and odor-causing bacteria—guaranteed. Intersept treated carpet, with proper maintenance, shows no mold or bacterial growth when tested per the ASTM E2471 Standard Test Method. Intersept is EPA approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde.

**ReEntry®**  
*Recyclable is Now a Reality.* Through our ReEntry program and partnerships with our fiber suppliers and recycling centers throughout North America, separated Type 6 and 6,6 nylon are recycled into new 6 and 6,6 nylon while separated GlasBac®RE and similar competitor backings are recycled into new GlasBac® non-virgin PVC backing using our Cool Blue™ technology. The result? Products with up to 89% total recycled content, including as much as 27% post-consumer content.

**Sustainable Choice**  
*Environmental Responsibility.* More than 95% of Interface products manufactured in the Americas carry the GreenCircle Certified Environmental Facts label, which has verified that standard Interface products are manufactured using 99% renewable energy and offer a minimum of 66% and 80% total recycled content when backed with GlasBac and GlasBacRE backing respectively.

**Samples**  
Order samples at [www.interface.com](http://www.interface.com). You'll receive email order confirmations, 24/7 access to order status and more. Not near a computer? You can also request samples by calling one of the numbers below.

**InterCircle™ Sample Return**  
Help us close the loop on the carpet sampling process. Through our InterCircle Sample Return program, sample materials stay out of the landfill and are re-used as samples until it is time to recycle them into new carpet. By reducing sample production material and diverting old materials from the landfill, we can reduce our overall environmental footprint.

Call 1.877.605.1500 (U.S.) or 1.866.398.3192 (Canada) to order a sample return bag with a prepaid return label.

Third Party Certification

**Cool Floor –** Our third party verified carbon offset program zeroes out all greenhouse gas (GHG) emissions associated with the entire life cycle of your flooring.

**Environmental Product Declaration (EPD) –** A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified.

**Sustainable Assessment for Carpet –** The only carpet sustainability standard in North America that evaluates the environmental impact of carpet for its entire lifecycle.

**CRI Green Label Plus –** An independent testing program that identifies carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.

All product specifications reflect averages derived from product sample testing, are subject to normal manufacturing and testing tolerances and inherent pattern variances, and may be changed without notice. For more information about these and other important attributes of the product(s) described herein, including recycled content and product warranty information, please see [www.interface.com/disclaimer](http://www.interface.com/disclaimer).

Printed on 50% post consumer waste (PCW) fiber manufactured using wind power.

We have tried our very best to accurately represent product colors. However, due to the nature of printed materials, color of actual products may vary slightly. Please request a sample to see actual product color.
