

Biosphere Collection

Interface®

Zoom out. Way out.

To the very edge of Earth's reach

Look down from that perspective, and what you see is a fusion of blurred edges. Colours, on this planetary scale, blend and fade beautifully as only nature can. Subtle washes of tone colouring the amazing contrasts of land, ocean and sky in the biosphere, the zone that supports every aspect of life on Earth. Covering each continent, merging all regions and nations into one. Discerning no man-made edges, continuously working over aeons of time.

Now more than ever, we know that damage to our biosphere creates untold problems for us and the life we share our planet with. For today and tomorrow, human industry simply has to evolve and turn towards preserving our fragile life support system. In creating our products we have put this awareness front and centre.

This is a path Interface has been on for 25 years now – one journey which leads us forward. From our mission of having no negative impact on the environment to today's Climate Take Back™, it will continue to inspire us to do only good for our planet. It's a truly positive story that will continue to evolve and inspire.

Biosphere™

Indigenous transitions of the layers between ocean and land, the gradations of low to highlands and the tonal shifts from mountain ranges towards ever changing skies inspired our latest collection, Biosphere. Like breath-taking views from the far edges of the earth, its textures merge with subtle layering effects. By adding a beautiful range of colour variation, it captures nature's most inspiring elements.

Biosphere is 100% carbon neutral, like all Interface products. Our Carbon Neutral Floors™ help you make a positive impact on people's lives and on the biosphere. It is another key step towards Climate Take Back™, our mission to run our business in a way that reverses global warming. As an industrial and technology leader, Interface always continues to reach further. To demonstrate in every way how a business can be highly successful yet do no harm – and even give back to nature. How every business can.

It's time to make preserving the biosphere everyone's priority. To strive for a more sustainable future, because our lives depend on it.

Specifications

Brushed Hues

Style Code	2402
Product Definition	Tufted Textured Loop
Yarn/Fibre	100% Solution Dyed Nylon
Machine Gauge	1/10
Pile Thickness	2.5mm +/- 0.5mm
Total Thickness	6.5mm +/- 0.5mm
Tile Size	25x100cm
Area of Use	Commercial – Heavy Use
ACCS (Australia Only)	Commercial Extra Heavy Duty & Stairs
Lifetime Antimicrobial	Intersept®
Soil/Stain Protection	Protekt ² ®
Installation Methods	Ashlar
