

Entropy

Interface®

Entropy™

With the introduction of Entropy, David Oakey and Interface ushered in a revolutionary new design platform, i2™, based on the concept of Biomimicry, a science that studies nature's models, systems and processes and encourages the application of these elements to man-made design. The first of many successful i2 styles, Entropy's pattern captures the naturally imperfect essence of leaves on forest floors and stones on riverbeds, Entropy answers the question:
How does nature design its floors?

When you specify flooring from Interface, you're selecting products that are carbon neutral across their full product life cycle through our Carbon Neutral Floors™ program.

PRODUCT ENTROPY COLOR 9600 RAVEN INSTALLED NON DIRECTIONAL

CARPET PRODUCT ENTROPY **COLORS** 7208 DIVERSITY, 9602 HONEYSUCKLE, 9606 PRALINE, 7228 ADOBE **INSTALLED** NON DIRECTIONAL
LVT PRODUCT LEVEL SET | NATURAL WOODGRAINS **COLOR** A00209 MAHOGANY **INSTALLED** ASHLAR

PRODUCT ENTROPY COLOR 7201 CHAMELEON INSTALLED NON DIRECTIONAL

Entropy™ Colorline

7200 VARIATIONS

7201 CHAMELEON

7202 MYRIAD

7203 EVOLUTION

7204 METAMORPHOSIS

7206 FRACTALS

7207 CHANGE

7208 DIVERSITY

7210 RANDOM

7211 CHANCE

7213 SERENDIPITY

7214 COINCIDENCE

7215 SPONTANEOUS

7216 REDWOOD

7217 TAUPE

7218 PEAT MOSS

7219 SHALE

7220 HEATH

7221 MESQUITE

7222 TOPAZ

7223 WHEAT

7225 AMETHYST

7228 ADOBE

7230 YUCCA

7232 BALTIC

Entropy™ Colorline (continued)

7233 DEEP BLUE

7234 REEF

7237 EBB TIDE

7238 BASALT

7239 ABALONE

9600 RAVEN

9601 TORTOISE

9602 HONEYSUCKLE

9603 GLACIER

9606 PRALINE

9607 GRANITE

Specifications **i2**

| | |
|-------------------------|-------------------------------|
| Modular, 50cm x 50cm | 14648 |
| Yarn Manufacturer | Universal |
| Yarn System | Post-Consumer Content Nylon |
| Color System | 100% Solution Dyed |
| Construction | Tufted Tip-Sheared |
| Preservative Protection | Intersept® |
| Soil/Stain Protection | Protekt ² ® |
| Pile Thickness | 0.107 in., 2.7 mm |
| Pile Density | 6,729 |
| Total Recycled Content | Up to 79% |
| Indoor Air Quality | CRI Green Label Plus #GLP0820 |

Why Our Modular Flooring?

i2® Modular Carpet

Minimize waste & save money.

Interface's i2® styles have mergeable dye lots. That means i2 tiles from different dye lots always blend with tiles of the same color, even when individual tiles are selectively replaced years later. This minimizes the need for attic stock and saves money. And i2 styles that install non directionally generate an average of only 1.5% installation waste as compared to 3-4% for typical modular carpet and an average of 14% for traditional roll carpet.

TacTiles™

No glue installation. Our revolutionary TacTiles installation system eliminates the need for glue, adhering tiles securely together to form a floor that “floats” for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives. TacTiles are approved for use on GlasBac™, CQuest™GB, Graphlar™ and Graphlex™.

Intersept®

Mold protection. Our proprietary preservative, Intersept, protects our modular carpet against mold growth and odor-causing bacteria—guaranteed. Intersept treated carpet, with proper maintenance, shows no mold or bacterial growth when tested per the ASTM E2471 Standard Test Method. Intersept is EPA approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde. Intersept is standard in Interface carpet tile products backed with GlasBac, CQuestGB, ReadyBac™, and CushionBac Renew™.

Samples

Order samples at interface.com. You'll receive email order confirmations, 24/7 access to order status and more. Not near a computer? You can also request samples by calling one of the numbers below.

InterCircle Sample Return

Help us close the loop on the carpet sampling process. Through our InterCircle Sample Return program, sample materials stay out of the landfill and are re-used as samples until it is time to recycle them into new carpet. By reducing sample production material and diverting old materials from the landfill, we can reduce our overall environmental footprint.

Call 1.877.605.1500 (U.S.) or 1.866.398.3192 (Canada) to order a sample return bag with a prepaid return label.

ReEntry™

Recyclable. Through our ReEntry program, we reclaim all Interface carpet tile. The result? Carpet tile products with up to 85% total recycled content, including as much as 25% post-consumer content.

Sustainability Transparency

Transparency and certified sustainability leadership come standard on Interface products, including published ingredients in HPDs (Health Product Declarations) and published EPDs (Environmental Product Declarations), which are based on full life cycle assessment (LCA). And, Interface carpet products are certified to the NSF 140 Sustainable Carpet Assessment Standard. Additionally, Interface flooring and recommended adhesives are 3rd party certified for low VOC emissions in compliance with California Department of Public Health (CDPH) Standard Method v1.2–2017. Carpet products made in our US facilities are made with 99% renewable energy.

Third Party Verification

The flooring products that we sell, including carpet tile, are carbon neutral across their full product life cycle through our third party verified Carbon Neutral Floors™ program. To find out more, visit interface.com/carbonneutral

Environmental Product Declaration (EPD) –

A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified.

NSF Certified
140/1401/1402 + 2007m
www.nsf.org

Sustainable Assessment for Carpet – The

only carpet sustainability standard in North America that evaluates the environmental impact of carpet for its entire lifecycle.

CRI Green Label Plus – An independent testing program that identifies carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.

RECYCLED
Paper made from recycled material
FSC® C009723

PLEASE RECYCLE

Printed on 50% post consumer waste (PCW) fiber manufactured using wind power.

We have tried our very best to accurately represent product colors. However, due to the nature of printed materials, color of actual products may vary slightly. Please request a sample to see actual product color.

All product specifications reflect averages derived from product sample testing, are subject to normal manufacturing and testing tolerances and inherent pattern variances, and may be changed without notice. For more information about these and other important attributes of the product(s) described herein, including recycled content and product warranty information, please see interface.com/disclaimer.
