

A photograph of a forest at night. Several dark, vertical tree trunks are visible against a warm, orange-hued sky. The ground is covered in grass and is illuminated by numerous out-of-focus, glowing lights in shades of yellow, orange, and red, creating a bokeh effect.

Flow Brights and Stripes

Flow Brights and Stripes™ Collection

Dynamic linear motion, one flowing movement of travel from start to end point. You see it naturally in the powerful arc path of a gymnast or the play of light created by fireflies on a forest trail. This natural sense of a journey forwards formed the inspiration for Flow™.

Flow™ never remains static. It is moving ahead in exciting, unusual ways. Even the best can become better, forging new paths and directions. Following a natural route, the design patterns of Flow™ Brights and Stripes are the FIRST to easily adapt to BOTH square or plank formats. This mix of ultimate flexibility via subtle tone and linear shape, adds a spark of inspiration to Flow™ which simply lights-up customer creativity.
