Mountain Rock
Panola Mountain
Rock Springs
Rockland Road
Imitation is the greatest form of flattery.

Granite is one of the hardest substances in the world, but even this seemingly immovable force bends to the power of nature—with beautiful results. Likewise, our biophilic-inspired Granite Mountain collection’s eight carpet tile designs visually translate this natural balance between strength and beauty.

Rock Springs™, Mantle Rock™ and Rockland Road™ are simpler patterns that gradually increase in texture and plushness, making them ideal for large areas.

Flat Rock™, Mountain Rock™ and Bridge Creek™ transition from field to specialized spaces with heightened textures and more defined patterns that mimic the changes of stone on a mountain.

Visuals peak with the metallic luster of Mile Rock™ and the colorful, vegetation-inspired design of Panola Mountain™. Add FLOR’s You’re So Vein™ for a perfect, marbled companion.

When you specify flooring from Interface, you’re selecting products that are carbon neutral across their full product life cycle through our Carbon Neutral Floors™ program.
Flat Rock™ Colorline

Specifications

- Modular: 50cm x 50cm
- Yarn Manufacturer: Aquafil
- Yarn System: 100% Recycled Content Nylon
- Color System: 100% Solution Dyed
- Construction: Tufted Pattern Loop
- Pile Thickness: 0.061 in, 1.5 mm
- Pile Density: 14,164 oz/yd³
- Total Recycled Content: Up To 84%
- Indoor Air Quality: Green Label Plus #GLP0820

Installation Methods

- NON DIRECTIONAL
- MONOLITHIC

**Why Our Modular Flooring?**

**Modular Flooring**
Performance and flexibility. Interface’s standard backing systems set the industry standard for modular performance. Tiles stay on the floor with no upcurt, no tapping and no rippling effect, yet are easy to selectively replace. Our modular carpet is easier to handle than bulky roll carpet and produces an average of just 3-4% waste compared to roll carpet’s average of 14%. And it installs seamlessly with our LVT, no transition strips needed.

**TacTiles™**
No glue installation. Our revolutionary TacTiles installation system eliminates the need for glue, adhering tiles securely together to form a floor that “floats” for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives. TacTiles are approved for use on GlasBac®, GlasBacRE, CQuest®, GraphLat™ and GraphHex™.

**Intersept+**
Mold protection. Our proprietary preservative, Intersept, protects our modular carpet against mold growth and odor-causing bacteria—guaranteed. Intersept treated carpet, with proper maintenance, shows no mold or bacterial growth when tested per the ASTM E2471 Standard Test Method. Intersept is EPA approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde. Intersept is standard in Interface carpet tile products backed with GlasBac, GlasBacRE, CQuest®, ReadyBac™ and CushionBac Renew™.

**ReEntry™**
Recyclable. Through our ReEntry program, we reclaim all Interface carpet tile. The result? Carpet tile products with up to 85% total recycled content, including as much as 25% post-consumer content.

**Sustainability Transparency**
Transparency and certified sustainability leadership come standard on Interface products, including published ingredients in Health Product Declarations (HPDs) and published Environmental Product Declarations (EPDs), which are based on full life cycle assessment (LCA). And, Interface carpet products are certified to the NSF 140 Sustainable Carpet Assessment Standard. Additionally, Interface flooring and recommended adhesives are 3rd party certified for low VOC emissions in compliance with California Department of Public Health (CDPH) Standard Method v1.2–2017. Carpet products made in our US facilities are made with 99% renewable energy.

**Third Party Verification**
The flooring products that we sell, including carpet tile, are carbon neutral across their full product life cycle through our third party verified Carbon Neutral Floors program. To find out more, visit interface.com/carbonneutral

**Environmental Product Declaration (EPD)** – A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive LCA is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified.

**Sustainable Assessment for Carpet – The only carpet sustainability standard in North America that evaluates the environmental impact of carpet for its entire lifecycle.**

**CRI Green Label Plus – An independent third party verified for carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.**

**Recycled Content**
Products with up to 85% total recycled content, including as much as 25% post-consumer content. For more information about these and other important attributes of the product(s) described herein, including recycled content and product warranty information, please see interface.com/disclaimer.

**interface.com**
Register at interface.com to:
• View carpet in a variety of room scenes
• Browse floor designs, change colors, view as a grid or in a room, download and share
• Check order status and inventory availability
• Sign up to get the latest information on Interface products and news

**InterCircle Sample Return**
Help us close the loop on the carpet sampling process. Through our InterCircle Sample Return program, sample materials stay out of the landfill and are re-used as samples until it is time to recycle them into new carpet. By reducing sample production material and diverting old materials from the landfill, we can reduce our overall environmental footprint.

Call 1.877.605.1500 (U.S.) or 1.866.398.3192 (Canada) to order a sample return bag with a prepaid return label.

All product specifications reflect averages derived from product sample testing, are subject to normal manufacturing and testing tolerances and inherent pattern variances, and may be changed without notice. For more information about these and other important attributes of the product(s) described herein, including recycled content and product warranty information, please see interface.com/disclaimer.

**FLOR by Interface offers lush textures and bold patterns that are anything but business as usual. FLOR carpet tiles are the perfect design accent for offices, conference rooms and high-profile collaborative spaces – as area rugs or wall-to-wall installations. With all the performance benefits of Interface products, including the 15+ year commercial warranty, they’ll get the job done for years to come.**

**Samples**
Order samples at interface.com. You’ll receive email order confirmations, 24/7 access to order status and more. Not near a computer? You can also request samples by calling one of the numbers below.
