

Paver

Interface

Transformative texture. Even more options.

The evolution of urban nature brings new tones and textures that innately connect people to their environment. Paver recalls the look and feel of well-worn city streets.

Human Connections houses the original Paver colours; the extended colour range includes a stand-alone suite of greys and greens.

Well-worn or pristine spaces, colourways found in Paver offer intelligent design options for any environment.

Paver is carbon neutral throughout its entire lifecycle through our Carbon Neutral Floors™ programme.
