Level Set Collection | LVT Stones
With thoughtful consideration for design, performance and a sustainable path, we’ve crafted a foundational collection of luxury vinyl tiles that fit perfectly into the Interface flooring systems.

Level Set Natural & Textured Stones is a selection of 50cm x 50cm squares in classic stone looks with patterns inspired by distressed, reclaimed and exposed materials. They’re a perfect match for our Skinny Planks™ and square carpet tiles, it is also a perfect fit in terms of thickness. This means you can easily install our resilient and soft flooring to create an integrated floor or inset rug, and move effortlessly from surface to surface without transition strips.

We design all our products with the ability to feed ReEntry®, our reclamation program. And, of course, like all of our products made around the world, the Level Set Collection is carbon neutral—just some of the many steps we take toward creating a climate fit for life. Join the #ClimateTakeBack movement.

Interface Modular Resilient LVT and Modular Carpet allow you to seamlessly move from hard to soft surfaces. No transition strip needed.
Integrated System.

*Say goodbye to transition strips and doubling up.* Our modular resilient floorings are made to work as a system with our modular carpet. The compatible size and height of our products allows you to integrate modular carpet for an inset rug or an adjacent field – no transition strip required. You'll avoid doubling up on materials and save money.

Real Flexibility.

*Create a unique look that lasts.* Interface modular resilient LVT makes it easy to extend the life of your floor. From simple maintenance like damp mopping to selectively replacing damaged tiles, your flooring investment will stand the test of time - beautifully and effortlessly.

Circular System.

*Keep flooring out of the landfill.* Our modular resilient LVT is produced with a controlled material stream so it can be reclaimed and recycled into our GlasBac® RE recycled content backing through our ReEntry® program.

Noise Reduction.

*Silence distractions.* Interface is helping create +Positive spaces™ with our LVT with Sound Choice backing. Sound Choice is a specially formulated backing developed for superior noise reduction, offering you best-in-class performance for reduced impact sound and floor to floor sound transmission.
Why Our Modular Resilient LVT? (continued)

High Performance from Top to Bottom.

2. Wear Layer. High quality layer enabling 15 years of resilience and performance.

3. Print Film. Provides outstanding visuals of natural materials and Interface innovative designs.

4. Core Sheet. Creates a thickness for a stronger core and reduces telegraphing from beneath.

6. Core Sheet. Creates a thickness for a stronger core and reduces telegraphing from beneath.

Third Party Certification.

*Carbon Neutral Floors.* All Interface flooring sold globally is third party verified carbon neutral. We’ve taken a holistic approach to achieve carbon neutrality, first through reducing the carbon footprint of our products and then using carbon offsets for the remainder.

*Environmental Product Declaration (EPD).* Interface LVT products are covered by an EPD. An EPD provides a comprehensive statement of product ingredients and environmental impacts based upon life cycle assessment performed to ISO standards.

*Sustainable Assessment.* Interface LVT meets the certification standards of the NSF/ANSI 332 Sustainability Assessment for Resilient Floor Coverings. This standard evaluates the environmental impact of resilient floor covering for its entire lifecycle.

*Indoor Air Quality.* All Interface modular flooring products meet the highest standards for indoor air quality. Interface LVT is FloorScore® Certified, assuring very low emissions of VOCs.
