NARRATIVES COLLECTION

Travel to the center of the city market and listen to the voices.

As we connect around the world, we see our personal histories, our stories, more and more entwined. If our stories were to take shape they would be complicated, layers of lines and patterns, sometimes fine and detailed and other times broad and gestural. The Narratives Collections is an elegant rendering of what this might look like.

NS230™, a broken scroll of flourishes drawn from the ancient and exotic, like a vintage silk rug, shimmers and fades in the light. In contrast, NS231™ reflects the purity and simplicity of fresh pressed linens. The transition between the two is distinct, with dramatic changes in fullness and texture.

Product
NS230

PRODUCT SPECIFICATIONS

NS230 Style: 142600AK0H (25cm x 1m)
Backing System GlasBac®RE Tile
Yarn System Post-Consumer Content Type 6,6 Nylon
Yarn Manufacturer Universal
Color System 100% Solution Dyed
Construction Tufted Sheared
Lifetime Antimicrobial Intersept®
Soil / Stain Protection Protekt2®
Pile Thickness 0.234 in., 5.9 mm
Pile Density 4,308 oz/yd²
Total Recycled Content 66% (32% Post-Consumer)
Installation Ashlar, Herringbone
CRI Green Label Plus GLP0820

COLORLINE

104700 FENNEL

104701 GINGER

104702 WASABI

104703 CHAI

104704 GINSENG

104705 SESAME

104706 DARJEELING

104707 OOLONG

WHY MODULAR CARPET TILE?

Flexibility

Keep Your Floor Beautiful. Modular carpet tile allows you to play with pattern and design without having to special order carpet sizes. And the same flexibility that lets you create your floor helps you keep it looking good because in-house staff can easily replace individual tiles that become damaged or heavily soiled—no down time or outside contractors required.

TacTiles®

No Glue Installation. Installation or reconfiguration with our glue-free TacTiles installation system means there's no glue smell and no drying time. Guests can use the room as soon as the last piece is laid and all they'll notice is a beautiful floor.

Intersept®

Mold Protection. No matter what's spilled on the floor, our proprietary preservative, Intersept®, protects our modular carpet against the growth of odor-causing bacteria—guaranteed. With proper maintenance Intersept treated carpet safely and effectively inhibits the growth of mold and other bacteria so your floors are always fresh.

Less Waste

Save Money. Interface Hospitality's carpet tile averages just 3.9% installation waste compared to as much as 18% or more with patterned roll carpet. Use our non directional styles with an average of 1.5% waste and save even more. That means more of your flooring investment stays on the floor—not in a dumpster.

Sustainable Choice

Environmental Responsibility. Interface was the industry's first to earn an EPD (Environmental Product Declaration), which evaluates consistent factors based on full lifecycle assessment (LCA). In addition, all of our products with GlasBac®, GlasBacRE and NexStep® backings meet NSF/ANSI 140 Sustainable Assessment for Carpet.

InterComfort™

Comfort underfoot. Offer guests the additional comfort and acoustical benefits of a cushion underlay with InterComfort, Interface Hospitality's cushion that installs easily and prevents damage to your subfloor. InterComfort is available in two formats—InterComfort PS+ for public spaces and InterComfort GR for guest rooms.

Cool Carpet™
Our third party verified carbon offset program zeroes out all greenhouse gas (GHG) emissions associated with the entire lifecycle of your carpet.

Sustainable Assessment for Carpet
The only carpet sustainability standard in North America that evaluates the environmental impact of carpet for its entire lifecycle.

CRI Green Label Plus
An independent testing program that identifies carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.

Environmental Product Declaration (EPD)
A statement of product ingredients and environmental impacts over the entire lifecycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and the LCA must be third party verified.
