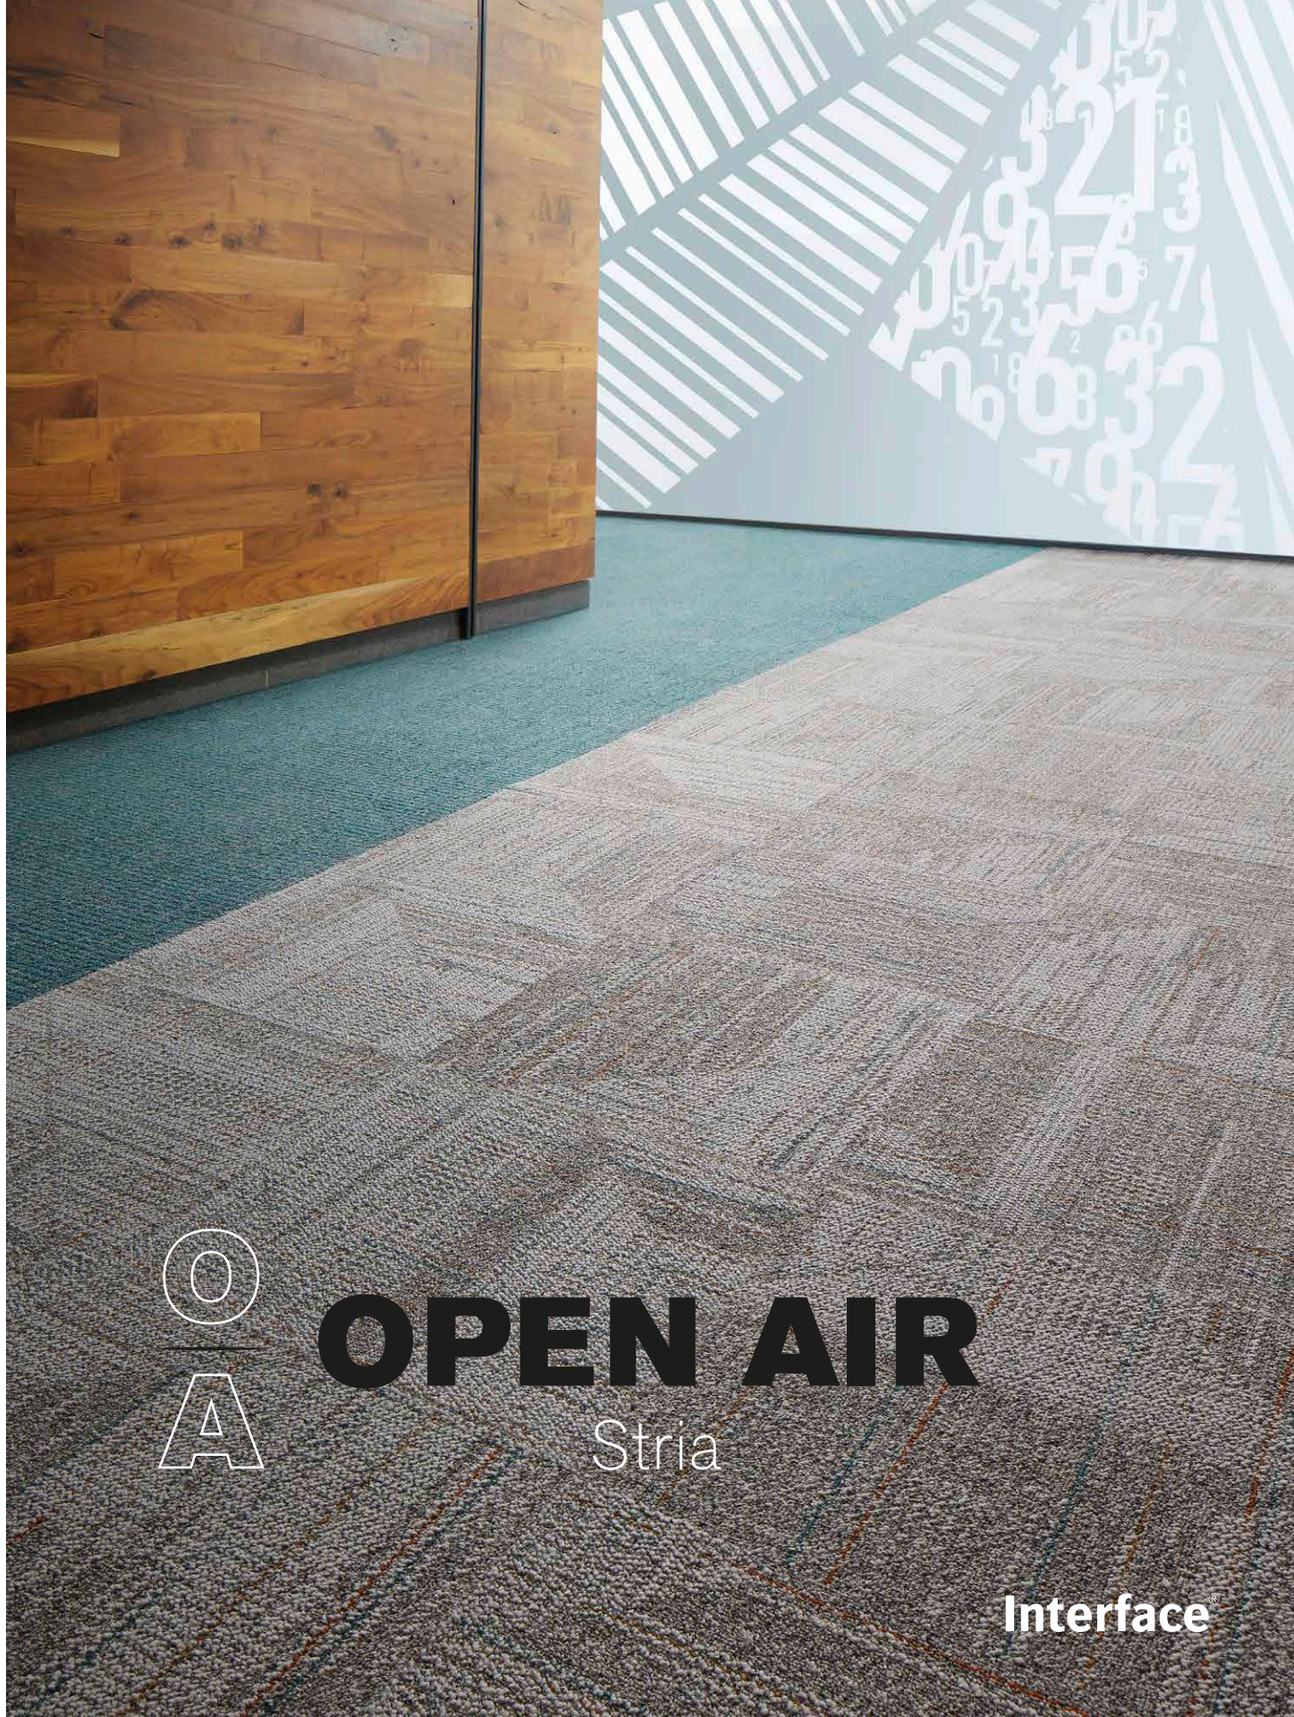
CLIMATE TAKE BACK™

Climate change is undeniable. And reversible. Our mission is to prove it. **Join the #ClimateTakeBack and help create a climate fit for life.**



OPEN AIR

Stria

Interface®

Open Air™ Stria

Meet Open Air™ Stria—a solution meticulously crafted to balance sophistication with practicality. Part of our expansive Open Air platform of hard-working carpet styles, Open Air Stria layers subtle strokes of color into your favorite Open Air patterns. And with our Open Air innovations in design and manufacturing, you get the same high-quality, high-performance carpet products you expect at one low price point.

Each Stria colorway features three accent stripes skillfully integrated from the coordinating Open Ended™ color range. Together, the subtle color of Stria and the near-solid color of Open Ended expand the possibilities for your floor. Offering foundational patterns and textures, Stria & Open Ended seamlessly coordinate with other Open Air styles, Third Space™, and related lines to give you a cohesive and comprehensive solution for your space.

No stranger to innovation, Interface produces carpet tiles with the lowest carbon footprint in the commercial flooring industry—before any offsets. And like all Interface products, the Open Air offering is third-party verified carbon neutral across the full product life cycle through our Carbon Neutral Floors™ program.

Open Air Stria & Open Ended

Expand your design possibilities with these thoughtful companions.

Grounded in complementary textures, you can pair any Stria style with Open Ended to emphasize wayfinding, define spaces, or simply add a colorful pop to an otherwise understated floor.

Each colorway in Open Air Stria incorporates 3 subtle accent stripes that match an Open Ended color, giving you multiple options to coordinate with other finishes in your space.

Together, Open Air Stria & Open Ended offer a flooring solution that understands your design needs and delivers a nuanced approach to style and performance.

Open Air 401 Stria Navy

Open Ended Copper, Turquoise, Olive

Why Our Modular Flooring?

i2® Modular Carpet
Minimize waste & save money. Interface's i2® styles have mergeable dye lots. That means i2 tiles from different dye lots always blend with tiles of the same color, even when individual tiles are selectively replaced years later. This minimizes the need for attic stock and saves money. And i2 styles that install non directionally generate an average of only 1.5% installation waste as compared to 3-4% for typical modular carpet and an average of 14% for traditional roll carpet.

TacTiles™
No glue installation. Our revolutionary TacTiles installation system eliminates the need for glue, adhering tiles securely together to form a floor that "floats" for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives. TacTiles are approved for use on GlasBac™, CQuest™GB, CQuest™Bio and CQuest™BioX.

Intersept®
Mold protection. Our proprietary preservative, Intersept, protects our modular carpet against mold growth and odor-causing bacteria—guaranteed. Intersept treated carpet, with proper maintenance, shows no mold or bacterial growth when tested per the ASTM E2471 Standard Test Method. Intersept is EPA approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde. Intersept is standard in Interface carpet tile products backed with GlasBac, CQuestGB, ReadyBac™ and CushionBac Renew™.

ReEntry™
Recyclable. Through our ReEntry program we reclaim and recycle our carpet tile and Sound Choice™ LVT. ReEntry is the only third party certified recycling system among North American flooring manufacturers.

Sustainability Transparency
Transparency and certified sustainability leadership come standard on Interface products. We enlist outside partners to help us evaluate the entire product life cycle and reduce the environmental and human health impact of our flooring. And, carpet products made in our US facilities are made with 99% renewable energy.

Help Lower Your Carbon Footprint
Like all the flooring products we sell, Interface carpet tile is carbon neutral across its full product life cycle through our third party verified Carbon Neutral Floors™ program. To find out more, visit interface.com/carbonneutral

Environmental Product Declaration (EPD) – A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified.

Health Product Declaration (HPD) – A transparency tool for evaluating whether a product supports Green Chemistry. As part of our work on Health and Materials, Interface continuously reduces the environmental and health impacts of our products through elimination of materials of concern.

CRI Green Label Plus – An independent testing program that identifies carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.

NSF 140 Sustainable Carpet Assessment – The only carpet sustainability standard in North America that evaluates the environmental impact of carpet for its entire life cycle.

InterCircle Sample Return
Help us close the loop on the carpet sampling process. Through our InterCircle Sample Return program, sample materials stay out of the landfill and are re-used as samples until it is time to recycle them into new carpet. By reducing sample production material and diverting old materials from the landfill, we can reduce our overall environmental footprint.

Call 1.877.605.1500 (U.S.) or 1.866.398.3192 (Canada) to order a sample return bag with a prepaid return label.

We have tried our very best to accurately represent product colors. However, due to the nature of printed materials, color of actual products may vary slightly. Please request a sample to see actual product color.

All product specifications reflect averages derived from product sample testing, are subject to normal manufacturing and testing tolerances and inherent pattern variances, and may be changed without notice. For more information about these and other important attributes of the product(s) described herein, including recycled content and product warranty information, please see interface.com/disclaimer.
