D.Y.F.™

DESIGN YOUR FLOOR!

RMS 202's perfectly straight, vertical stripes are softened by irregular, horizontal bands of subtle texture. Install brick or quarter-turn.

1. $29.2\% \text{ A} + 29.8\% \text{ B} + 35.4\% \text{ C} + 5.6\% \text{ D} =$ 

Choose four colors from the Monochrome™ palette or work with your rep to find perfect hues for your project. The key below demonstrates how each color appears in a final design.

Solids

2. 

When you have colored the pattern, we can create a sample in your palette. Contact your rep to request a sample.

63%

Installation

Brick, Quarter-Turn

Indoor Air Quality

CRI Green Label Plus #GLP0820

WHY MODULAR CARPET TILE?

Flexibility

Keep Your Floor Beautiful. Modular carpet tile allows you to play with pattern and design without having to special order carpet sizes. And the same flexibility that lets you create your floor helps you keep it looking good because in-house staff can easily replace individual tiles that become damaged or heavily soiled—no down time or outside contractors required.

TacTiles®

No Glue Installation. Installation or reconfiguration with our glue-free TacTiles installation system means there's no glue smell and no drying time. Guests can use the room as soon as the last piece is laid and all they'll notice is a beautiful floor.

Intersept®

Mold Protection. No matter what's spilled on the floor, our proprietary preservative, Intersept, protects our modular carpet against the growth of odor-causing bacteria—guaranteed. With proper maintenance Intersept treated carpet safely and effectively inhibits the growth of mold and other bacteria so your floors are always fresh.

Sustainable Choice

Environmental Responsibility. Interface was the industry's first to earn an EPD (Environmental Product Declaration), which evaluates consistent factors based on full lifecycle assessment (LCA). In addition, all of our products with GlasBac®, GlasBacRE and NexStep® backings meet NSF/ANSI 140 Sustainable Assessment for Carpet.

Less Waste

Save Money. Interface Hospitality's carpet tile averages just 3.9% installation waste compared to as much as 18% or more with patterned roll carpet. Use our non directional styles with an average of 1.5% waste and save even more. That means more of your flooring investment stays on the floor—not in a dumpster.

*Looking for additional comfort under foot?
Ask about our InterComfort™ carpet underlayment.*

cool carpet™

Cool Carpet™

Our third party verified carbon offset program zeroes out all greenhouse gas (GHG) emissions associated with the entire lifecycle of your carpet.

Sustainable Assessment for Carpet

The only carpet sustainability standard in North America that evaluates the environmental impact of carpet for its entire lifecycle.

CRI Green Label Plus

An independent testing program that identifies carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.

Environmental Product Declaration (EPD)

A statement of product ingredients and environmental impacts over the entire lifecycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and the LCA must be third party verified.
