

Printed on 50% post consumer waste (PCW) fiber  
manufactured using wind power.

We have tried our very best to accurately represent  
product colors. However, due to the nature of printed  
materials, color of actual products may vary slightly.  
Please request a sample to see actual product color.

Climate change is undeniable. And  
reversible. Our mission is to prove it.  
**Join the #ClimateTakeBack and  
help create a climate fit for life.**

A modern interior space featuring a large, patterned carpet in shades of grey, green, and yellow. A sleek, black, modern lounge chair is positioned on the carpet. In the background, a glass and metal staircase with a glass railing is visible. The room has large windows on the right side, letting in natural light.

# Silver Linings Collection

**Interface®**

A stormy sky might seem hopeless, but silver linings in dark clouds assure us of the optimism of nature, that storms will clear to brighter prospects.

Loaded with possibilities, Silver Linings™ is a collection of three patterns in 12 colorways designed in our 25cm x 1m planks. SL910™ is the quiet-before-the-storm, pure texture. Three accent colors start to flicker through the second texture, SL920™. And a very exciting new effect appears in SL930™, where each accent finds a place on its own tile and color flashes in bold gestures—transforming the whole atmosphere of a space through the shift in scale.

## Specifications

### SL910

Modular, 25cm x 1m	138770AK00
Backing System	GlasBac® Tile
Yarn Manufacturer	Aquafil
Yarn System	100% Recycled Content Nylon
Color System	100% Solution Dyed
Construction	Tufted Textured Loop
Preservative Protection	Intersept®
Soil/Stain Protection	Protekt <sup>2</sup> ®
Pile Thickness	0.112 in., 3.7 mm
Pile Density	6,429
Total Recycled Content	69%
Indoor Air Quality	CRI Green Label Plus #GLP0820

### SL920

Modular, 25cm x 1m	138780AK00
Backing System	GlasBac® Tile
Yarn Manufacturer	Aquafil
Yarn System	100% Recycled Content Nylon
Color System	100% Solution Dyed
Construction	Tufted Textured Loop
Lifetime Antimicrobial	Intersept®
Soil/Stain Protection	Protekt <sup>2</sup> ®
Pile Thickness	0.112 in., 2.8 cm
Pile Density	6,429
Total Recycled Content	69%
Indoor Air Quality	CRI Green Label Plus #GLP0820

### SL930

Modular, 25cm x 1m	138790AK00
Backing System	GlasBac® Tile
Yarn Manufacturer	Aquafil
Yarn System	100% Recycled Content Nylon
Color System	100% Solution Dyed
Construction	Tufted Textured Loop
Preservative Protection	Intersept®
Soil/Stain Protection	Protekt <sup>2</sup> ®
Pile Thickness	0.117 in., 3 mm
Pile Density	6,462
Total Recycled Content	69%
Indoor Air Quality	CRI Green Label Plus #GLP0820

## Design Ideas

■ **PRODUCT** SL910 **COLOR** 104502 NICKEL

## Why Our Modular Carpet?

### i2® Modular Flooring

*Minimize waste & save money.* Interface's i2 styles have mergeable dye lots. That means i2 tiles from different dye lots always blend with tiles of the same color, even when individual tiles are selectively replaced years later. This minimizes the need for attic stock and saves money. And i2 styles that install non directionally generate an average of only 1.5% installation waste as compared to 3-4% for typical modular carpet and an average of 14% for traditional roll carpet.

### TacTiles™

*No glue installation.* Our revolutionary TacTiles installation system eliminates the need for glue, adhering tiles securely together to form a floor that "floats" for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives.

**Third Party Certification**  
*Our Carbon Neutral Floors™ program is annually verified by a third party.*

**Environmental Product Declaration (EPD)** – A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified.

### Intersept™

*Mold protection.* Our proprietary preservative, Intersept, protects our modular carpet against mold growth and odor-causing bacteria—guaranteed. Intersept treated carpet, with proper maintenance, shows no mold or bacterial growth when tested per the ASTM E2471 Standard Test Method. Intersept is EPA approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde.

### ReEntry™

*Recyclable is now a reality.* Through our ReEntry program and partnerships with our fiber suppliers and recycling centers throughout North America, separated Type 6 and 6,6 nylon are recycled into new 6 and 6,6 nylon while separated GlasBac™, GlasBacRE, similar competitive backings and our own LVT are recycled into new GlasBacRE non-virgin PVC backing using our Cool Blue™ technology. The result? Products with up to 89% total recycled content, including as much as 27% post-consumer content.

**Sustainable Assessment for Carpet** – The only carpet sustainability standard in North America that evaluates the environmental impact of carpet for its entire lifecycle.

**CRI Green Label Plus** – An independent testing program that identifies carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.

### Sustainable Choice

*Environmental responsibility.* More than 95% of Interface products manufactured in the Americas carry the GreenCircle Certified Environmental Facts label, which has verified that standard Interface products are manufactured using 99% renewable energy and offer a minimum of 66% and 80% total recycled content when backed with GlasBac and GlasBacRE backing respectively.

Transparency and certified sustainability leadership come standard on all Interface products, including published ingredients in HPDs (Health Product Declarations) or Declare Labels. In addition, more than 99% of our products globally have a published EPD (Environmental Product Declaration), which evaluates consistent factors based on full life cycle assessment (LCA). And, all Interface products with GlasBacRE backing are certified to the Platinum level of the NSF/ANSI 140 Sustainable Assessment for Carpet. GlasBac backed products meet the Gold level. NSF/ANSI 140 certified products contribute toward a USGBC or CaGBC LEED credit.

### Carbon Neutral Floors™

*Create a climate fit for life.* All Interface flooring sold globally is third party verified carbon neutral. We've taken a holistic approach to achieve carbon neutrality, first through reducing the carbon footprint of our products and then using carbon offsets for the remainder, including the emissions from raw materials, our manufacturing processes and product use to end of life.
