Providing care is at the heart of all that you do.
We share your commitment to service.

Our portfolio of nora® rubber, LVT, and carpet tile creates one integrated flooring system across your facility. From lobbies to patient rooms, it supports staff and patients every step of the way—with safety, health, and performance in mind.

Every color, pattern, and detail is grounded in research on how design affects healing, safety, and wellbeing. The result: flooring shaped around the unique needs of patients and staff.

That's why we're Made for More™.

WITHOUT COMPROMISE

GO-DO-MORE FLOORS

From clinical spaces to waiting rooms and the corridors in between, Interface flooring systems can be tailored to any environment. Let us help you to make the most of your budget, creating spaces that stand up to your most demanding needs.

ONE PARTNER. EVERY FLOORING SOLUTION YOUR HEALTHCARE ENVIRONMENT NEEDS.

Our flooring products—nora rubber, LVT, carpet tile, and coordinating accessories—are developed to deliver superior performance and a lower total cost of ownership over the life of the products.

Flooring is just one part of the healing environment. For every patient, staff member, and visitor who moves through the space, thoughtful flooring choices—backed by research on how design supports health and recovery—can help contribute to better outcomes for all.

YOUR DESIGN PARTNER

WE MAKE FINDING DESIGN
SOLUTIONS EASIER WITH
INTERFACE DESIGN STUDIO

Our expert designers know all our product categories inside and out—and their services are complimentary. From concept to completion, they can work closely with you to create distinct designs that meet your vision and budget no matter how large or small the project. The to-scale floor plan layouts can project overall waste and act as an installation guide for the flooring contractor. Plus, they include the embodied carbon calculation, making it easier to design with carbon footprint in mind. Just contact your sales rep to get started.

Performance Starts Here

- Non-porous surface provides chemical and stain resistance
- Reduces incidence of slips, trips, falls
- Ease of maintenance and repairability
- Impact sound reduction of up to Δ IIC 23
- Comfort underfoot reduces foot and leg fatigue

ARCHITECT/DESIGN: GRESHAM SMITH
PHOTO: ©2019 MCGINN PHOTOGRAPHY

4.5 mm Sound Choice

- Greater impact sound reduction of IIC 64
- GreenCircle certified 100% recyclable through ReEntry™
- Ceramor™ coating resists slips, scuffs, and scratches
- 39% pre-consumer recycled content

3.0 mm

- Impact sound reduction of IIC 56
- Ceramor™ coating resists slips, scuffs, and scratches
- 39% pre-consumer recycled content

CARPET TILE

EVERYTHING YOU LOVE ABOUT SOFT FLOORING
BUT WITH THE FLEXIBILITY OF TILE.

Functional Performance and Design Freedom

- Ease of installation and replacement with our glue-free TacTiles™ installation system
- Dense construction with premium recycled content nylon fibers
- Solution-dyed fibers to withstand harsh substances
- Intercept™, our proprietary preservative, is permanently incorporated into the backing to protect carpet tiles against mold growth and odor—even at the seams
- Interface's i2™ styles have mergeable dye lots that facilitate selective replacement

Walk-off carpet

Make the most of your entryways with styles that grab dirt and debris before it can be tracked inside.

MADE FOR CIRCULAR THINKING

*Good Design
Never Ends*

Designed once. Designed to be used again.

Circularity starts with good design. Built for the full life cycle, our products perform and they endure—so they stay in use longer and reduce impact at every stage.

Smarter design means modular solutions that use fewer materials and last longer. Better inputs—like recycled, bio-based, and carbon-storing materials—help lower carbon. Planning for what's next—with regional programs that reclaim, reuse, or recycle—keeps more flooring in use and out of the waste stream.

Each decision helps keep our products in play and drives carbon emissions down—for you and for us. It's proof that good design truly never ends.
