

Taking Care

Innovative Flooring Systems
for Healing Environments

Interface®

Healthcare Solutions

People are at the heart of what you do

—we're familiar with that, too.

As you work to deliver the best care possible, we've worked to ensure the last thing on your mind is what's underfoot. With our portfolio of nora® rubber, LVT, carpet tile and vinyl sheet, we can cover every square inch of your facility with a flooring system that supports staff and patients every step of the way through safety, performance, maintenance, integrated design and the pursuit of sustainability.

Superior product benefits on call, 24/7/365.

Discover what makes Interface the first
choice for lasting impact.

Performance

- Help combat staff fatigue by providing comfort underfoot
- Improve indoor air quality, as all Interface floor coverings are 3rd-party certified for low VOC emissions
- Reduce unwanted noise, which can contribute to the overall patient experience

Maintenance

- Support high-function spaces that can't afford downtime with solutions that offer ease of maintenance, repair and replacement
- Lower cost of ownership over the life of the product

Safety

- Reduce the incidence and severity of slips, trips, and falls
- Help support infection control and efficacy protocols by specifying the right products
- Reduces musculoskeletal fatigue

Integrated Design

- Define space and support wayfinding with styles in a wide variety of patterns and scales
- Work together as a product system across virtually any space

Sustainability

- Reduce carbon footprint with our 3rd-party verified Carbon Neutral Floors™ program
- As your partner, we can help you navigate real-world waste diversion strategies for your flooring.

A plan for your floor plan.

Our portfolio of products combines for a system that's truly seamless.

From the OR to the ER and the corridors in between, Interface's flooring systems can be tailored to each environment. Let us help make the most of your budget to create spaces that meet your business needs.

Case Study

Interface in Action: Deaconess Gateway Hospital

How nora® flooring helped support their patient-centered vision

When Deaconess Gateway Hospital started planning construction of its six-story patient tower, Facilities Manager Kim Mans launched a major research project to learn more about healthcare flooring. After visiting facilities throughout the region and talking to colleagues at other medical centers, she chose nora® premium rubber flooring to achieve the results she was looking for, overcome issues with residual moisture and fulfill the Deaconess Gateway's mission of putting "people at the center of everything we do." The decision has benefitted patients, caregivers and maintenance staff alike. From its simple maintenance regimen to its superior acoustic properties, nora® proved to be the perfect solution for this leading healthcare facility.

"As our nurses age, nora® rubber flooring is better on their legs, since they're working 12-hour shifts."

Kim Mans
Facilities Manager, Deaconess Gateway Hospital

Quick Takeaways

Location:
Newburgh, IN

Facility Type:
Hospital

Project Requirements:

- Durability
- Low maintenance
- Ability to install without welding seams
- Comfort underfoot

- noraplan® valua™ ntx™
- norament® satura™ ntx™
- norament® satura™

Architect/Designers:

- Rebecca Brady, Hafer, Evansville, IN
- Scott McFadden and Samantha Blackmore, BSA LifeStructures, Indianapolis, IN

Services

You need more than a flooring vendor.

You need a *partner*.

As your single-source provider, we can support your project every step of the way, from design to post-installation, and we can even be a valued resource for your organization's sustainability mission.

Interface and nora® Technical Services

Our experts are available for consultations before, during, and after flooring installation. Plus, we can help develop a comprehensive maintenance plan to deliver a greater return on investment and a lower total cost of ownership.

Interface Design Studio

Partner with expert designers to create distinct designs that exceed your expectations—but not your budget. To-scale floor plans can serve as an installation guide for your flooring contractor and help to calculate overall waste. Best of all, Interface Design Studio services are complimentary.

Reclamation Programs

As your partner, we can help you navigate options for removal and disposal of your flooring. From our ReEntry™ program, which recycles Interface carpet tile and Sound Choice™ LVT, to our Construction Waste Take-Back Program for the reuse and down-cycling of nora®, you can make strides towards your sustainability goals.

Product Portfolio

Flooring that stands up to the demands of your day-to-day.

How can you specify products that are durable and hold up over time in a healing space? Choose from Interface's product portfolio of nora® rubber, LVT, carpet tile and vinyl sheet for a system that works together to meet space-specific needs. Plus, we have a variety of extras like Interface walk-off products for entryways, nora® stairwell solutions, and a range of accessories for norament® and noraplan® floor coverings to cover, well, everything.

RUBBER PRODUCT NORAMENT® SATURA™ COLORS 5110 ARA, 5122 EARTH
