CLIMATE TAKE BACK™

Climate change is undeniable. And
reversible. Our mission is to prove it.
**Join the #ClimateTakeBack and
help create a climate fit for life.**

Rubber Product **norament® satura™** | Colors 5110 Ara, 5122 Earth | Installed Directional
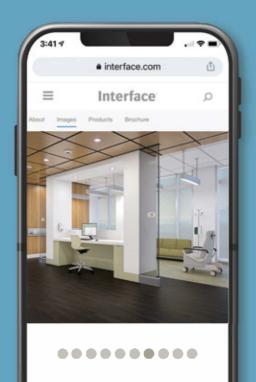

Enrique Samson, tvsddesign

GET CONNECTED

GET TO KNOW INTERFACE. YOUR SINGLE SOURCE PROVIDER WITH THE RIGHT-SIZE SOLUTION.

A healthcare facility is far more than a well designed structure. It's a destination for healing. And, Interface understands the demanding challenges that flooring encounters in healthcare environments, the urgency of keeping an emergency department running 24/7, or ensuring that an operating room is operational on-demand. Our flooring solutions are designed with the highest standards of safety, while providing ease of maintenance and minimal downtime. Whether in a high function space or a private waiting room, Interface knows the importance of selecting product that meets your needs. That's why all our options—nora® rubber, vinyl sheet, LVT, and carpet tile—are durable, reduce the incidence of slip, trips, falls, offer stain resistance and comfort under foot, and reduce unwanted noise—all with sustainability in mind.

From the initial planning and design phase through the floor's reclamation process, Interface is with you every step of the way. Interface is truly your partner in creating an experience that positively impacts the lives of both patients and providers.

YOUR PARTNER
FOR ALL YOUR HEALTHCARE FLOORING NEEDS

Interface is your partner for space specific solutions from the slab up with initial design, technical support, consultative maintenance services, and more. We deliver an holistic approach that guides each project every step of the way balancing design and function with an eye towards sustainability.

Interface and nora Technical Services

Our unmatched product and technical support programs help healthcare clients mitigate risks of flooring failures and costly delays by consulting with you at any stage of the process. We can help guide you on selecting products that work beautifully together as a system. We also provide continuous training with key personnel for the care and maintenance of your flooring to ensure best practices and longevity of flooring systems.
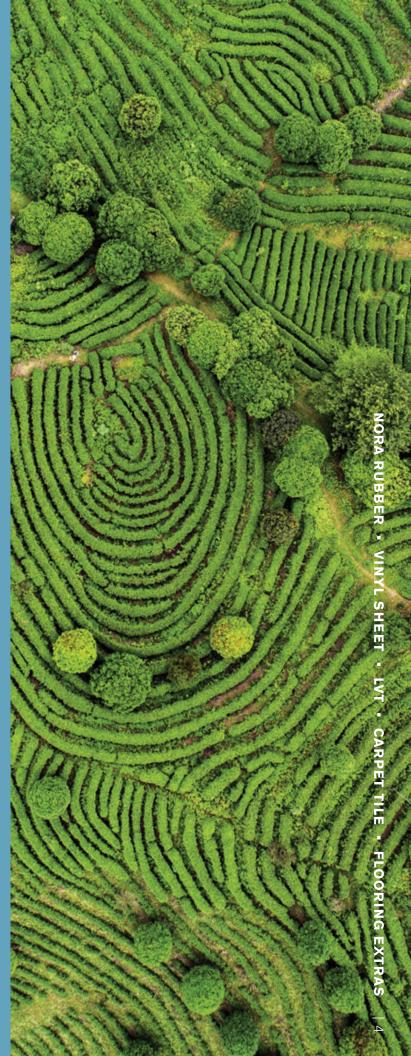

Our experts are available for consultations before, during, and after flooring installation for projects of any size. Plus, we can help develop a comprehensive maintenance plan to deliver a greater return on investment and a lower total cost of ownership.

Interface Design Studio (IDS)

The foundation of every design project is directly under foot. Our team of design experts is trained to focus on floors to create beautiful interiors, matching space specific solutions with design and budget. Interface understands the challenges of each distinct space and can help to support the patient and caregiver experience.
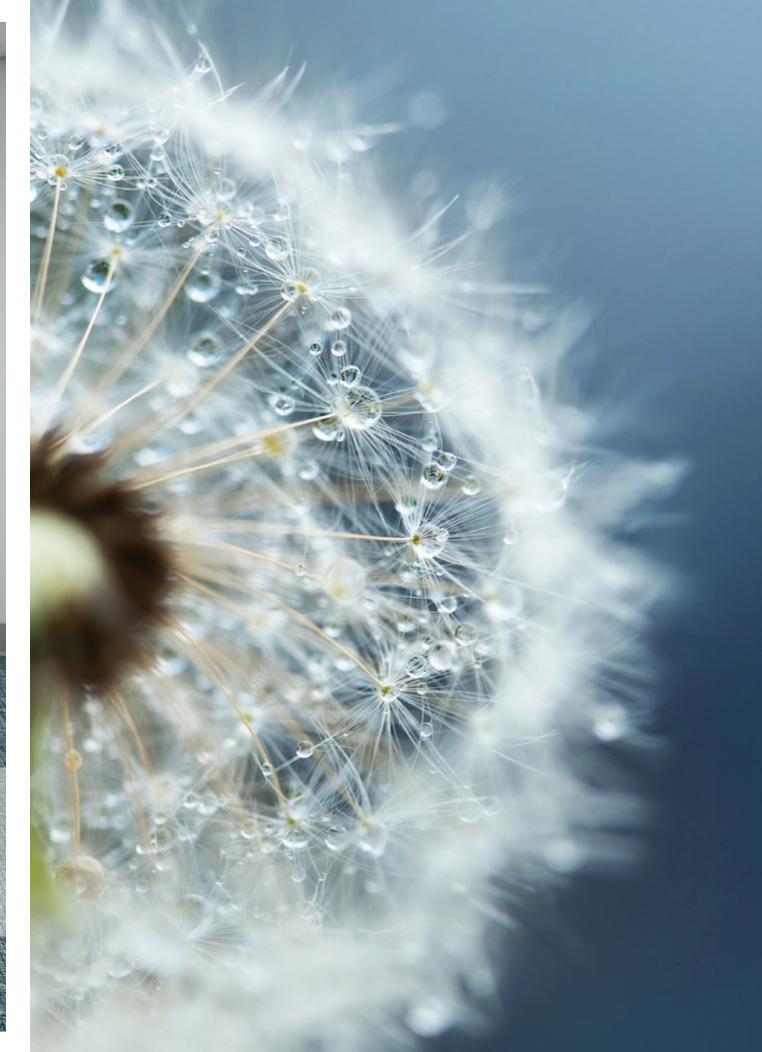

Reclamation Programs

We also look at products throughout their life cycle. Our reclamation programs include Interface's ReEntry™ Program to help you responsibly dispose of used flooring and installation waste and nora's Construction Waste Take-Back Program allows for the return of NEW waste and scrap material from installation.

YOUR DESIGN
PARTNER

We make finding design solutions easier with Interface Design Studio. These expert designers know Interface products inside and out—and their services are complimentary. From concept to completion, they can work closely with you to create distinct designs that meet your vision and budget no matter how large or small the project. Plus, the to-scale floor plan layouts can project overall waste and act as an installation guide for the flooring contractor. Just contact your sales rep to get started.

A SOFTER

HARD SURFACE

Flooring that's so durable it can last for decades—and still look good—is a must-have for any healthcare environment. nora rubber does just that and more.
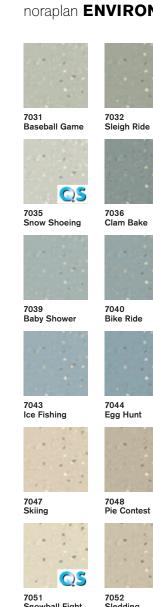

- Works together with LVT, carpet tile, and vinyl sheet for a flooring system that performs in virtually any healthcare environment
- Reduces incidence of slips, trips and falls
- Ease of maintenance and repairability
- Help combat staff fatigue by providing comfort under foot
- Dimensionally stable
- Non-porous, highly dense surface of nora rubber creates a long-lasting floor that cleans easily with little more than water
- Doesn't require coatings, and scratches can be remediated
- Highly resistant to chemicals and stains
- Offers impact sound reduction of up to Δ IIC 21
- Contributes to better indoor air quality
- Third-party verified carbon neutral across the full product life cycle through our Carbon Neutral Floors™ program
- nora® nTx™ floor covering with self-adhesive backing is easily installed as a part of renovation or new construction, even in areas of high level residual moisture

DURABILITY
MEETS AFFORDABILITY

Engineered for design and budget flexibility with the durability to stand up to the rigors of the busy healthcare environment.

- Works together with nora® rubber, LVT, and carpet tile for a flooring system that performs in virtually any healthcare environment
- Ceramor™ coating provides a durable finish that resists scuffs and scratches
- Offers stain and slip resistance
- Ease of installation and maintenance with less facility downtime
- Visually seamless thanks to monolithic installation with coordinating heat welds
- Heterogeneous construction for increased design flexibility
- Reduces noise from wheel and foot traffic
- Applicable in a variety of healthcare spaces—including patient rooms, corridors, exam rooms and more
- 25% pre-consumer recycled content
- Third-party verified carbon neutral across the full product life cycle through our Carbon Neutral Floors™ program

HARD ON TRAFFIC
SOFT ON NOISE

Designed to work as a system with our nora rubber, carpet tile, and vinyl sheet, our LVT options—Sound Choice 4.5 mm and Criterion 3 mm—make it even easier to specify the right flooring for each area of your facility.

Sound Choice™ 4.5 mm

- Available in 25 cm x 1 m planks and 50 cm x 50 cm squares
- Ceramor™ coating provides a durable finish that resists scuffs and scratches
- Slip resistance and durability
- Greater impact sound reduction of IIC 64
- Optimal dimensional stability and flexibility thanks to an incorporated fiberglass layer
- Offers ease of installation and maintenance
- Minimum of 39% pre-consumer recycled content
- Recyclable through our ReEntry™ program
- Third-party verified carbon neutral across the full product life cycle through our Carbon Neutral Floors™ program

Criterion 3 mm

- Available in 12.5 cm x 1 m planks and 50 cm x 50 cm squares
- Ceramor™ coating provides a durable finish that resists scuffs and scratches
- Slip resistance and durability
- Impact sound reduction of IIC 56
- Optimal dimensional stability and flexibility
- Offers ease of installation and maintenance
- Minimum of 39% recycled content
- Third-party verified carbon neutral across the full product life cycle through our Carbon Neutral Floors™ program

THE SOFTER SIDE

OF HIGH PERFORMANCE

Our modular carpet is everything you love about soft flooring with the flexibility of tile. We've been perfecting it for more than 40 years.
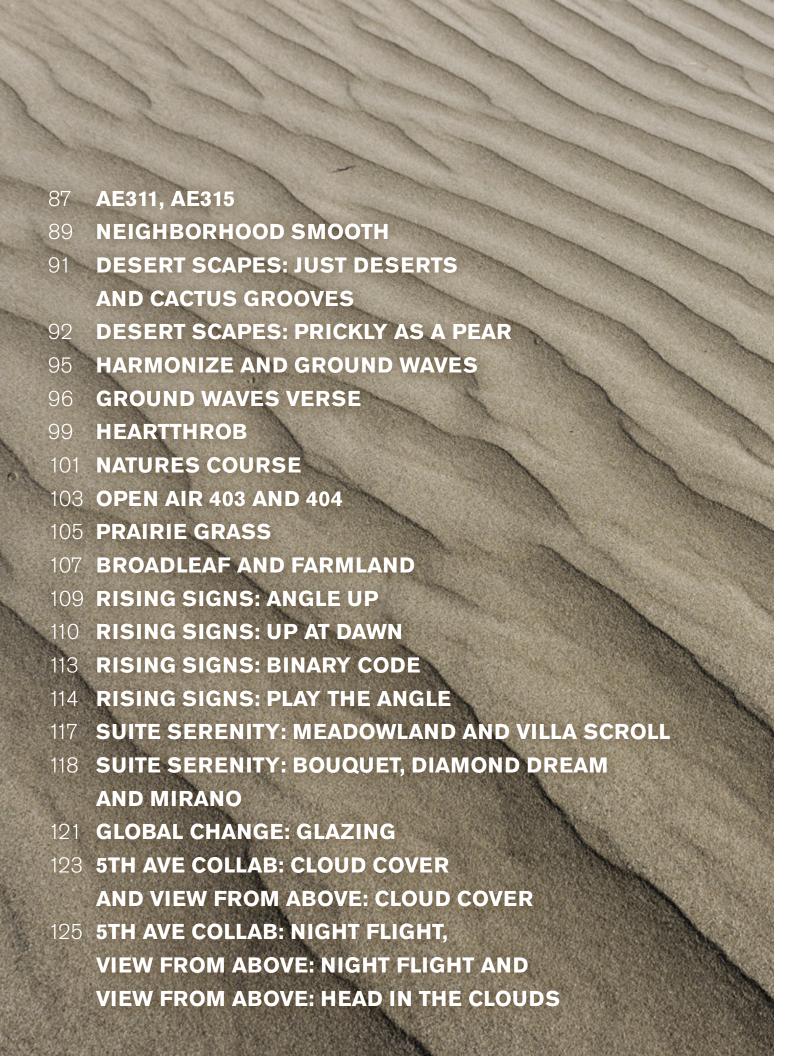

- Extensive selection of patterns, colors and sizes that work as a system with our nora rubber, LVT and vinyl sheet products
- Structured, dimensionally stable backing system keeps tiles in place and flat on the floor
- Dense construction with premium nylon fibers holds up to heavy traffic
- Solution dyed fibers withstand harsh substances like bleach or hand sanitizers
- Ease of installation and replacement with our glue-free TacTiles™ installation system. Use full-spread adhesive in areas where there are heavy rolling loads.
- Intersept™, our proprietary preservative, is permanently incorporated into the backing to protect carpet tiles against mold growth and odor—even at the seams
- Interface's i2™ styles have mergeable dye lots that facilitate selective replacement
- Interface Modular Carpet on CQuest™GB, CQuest™Bio, and CQuest™BioX meet the USDA Certified Biobased Product Federal Purchasing Requirements
- Interface Modular Carpet on CQuest™Bio is Greenhealth Approved
- The innovative CQuest™ backings offer superior performance with a low carbon footprint. CQuest™GB is made with post-consumer carpet tiles, bio-based additives and pre-consumer recycled materials. CQuest™Bio, which also contains biobased and recycled content, is free of PVC and antimicrobials, and Greenhealth Approved.
- Recyclable through our ReEntry™ program
- Third-party verified carbon neutral across the full product life cycle through our Carbon Neutral Floors™ program

Greenhealth
APPROVED™
Addresses priority chemicals of concern

ALL THE EXTRAS

FROM ENTRYWAYS TO STAIRS AND MORE

When we say we have a system of products for EVERY healthcare space, we mean it. That includes walk-off products for entryways, nora stairwell solutions, and a range of accessories for norament® and noraplan® floor coverings to complete the perfect floor.

Interface Walk-Off Carpet

- Unlike most walk-offs, ours can be cleaned just like carpet, making it ideal for entryways and high-traffic areas
- Stiff fibers in our Step Repeat™ Collection grab dirt and debris before it's tracked inside, trapping it until it can be vacuumed later
- Interiors stay fresher, creating a better indoor environment with reduced maintenance

nora® Stairwell Solutions

- Fast installation and decades-long endurance against heavy traffic
- norament® stairtreads offer a pre-shaped stair nosing, riser and tread all-in-one piece and fit straight steps with an angled edge
- nora stair nosings use a slide-in lip to lock in smooth or hammered surface noraplan and norament floor coverings for installation on all types of staircases
- nora® visually impaired strips offered in smooth or textured surface, available in different colors, including a photoluminescent option
- norament stairtread options with high fire-retardant properties are ideal for emergency exits and stairwells
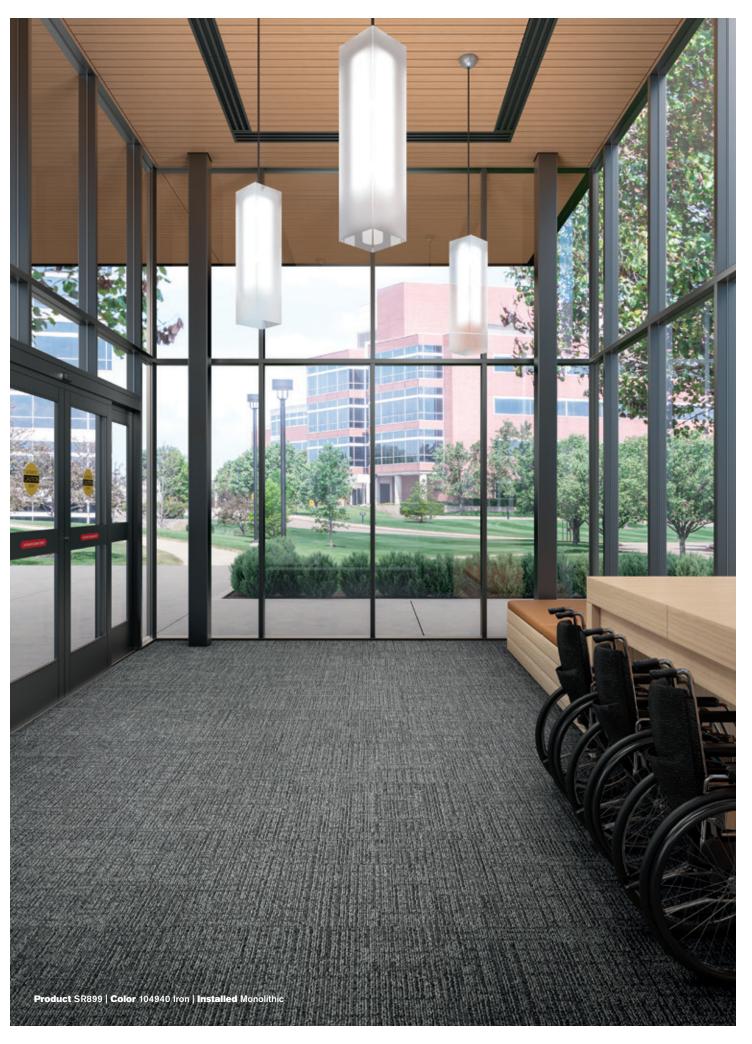

nora® Accessories

- nora® wall base adds that final touch to your installation
- nora® heat weld or nora® cold weld for monolithic installations
- nora® sanitary base for areas with stringent hygienic requirements
- High-quality installation materials tailored to nora® rubber

COMMITTED
TO SUSTAINING
A HEALTHY
ENVIRONMENT—
INSIDE AND OUT.

Delivering the lowest carbon footprint in the industry, we are dedicated to running our business in a way that reverses global warming and paving the way for other companies, so together we create a climate fit for life.

BETTER CONTROL OVER YOUR FACILITY'S CARBON CONTRIBUTIONS

- nora rubber, LVT, carpet tile, and vinyl sheet flooring products are carbon neutral across their full product life cycle through our third-party verified Carbon Neutral Floors™ program.

REDUCE WASTE THROUGH OUR RECLAMATION PROGRAMS

- Discarded carpet accounts for five billion pounds of landfill waste in the U.S. each year.
- Interface's reclamation program positions us as the only manufacturer that has a 3rd party certified, closed-loop recycling program, through which we take back Interface carpet tile and Sound Choice™ LVT products.
- Our Construction Waste Take-Back Program also makes it possible to return waste and scrap material from new installations of nora flooring. That material can be reused in the production of new nora floor coverings, down-cycled into other products or used to generate energy.

Creating
a Healthier
Planet–Together

Our goal is to make products with the lowest carbon footprint possible. Through our innovations working with recycled content and bio-based materials, we're making carpet tiles that store carbon, preventing its release into the atmosphere. And the flooring products that we sell, including carpet tile, LVT and nora rubber, are carbon neutral across their full product life cycle through our third party verified Carbon Neutral Floors™ program. When you purchase our flooring, you're helping create a healthier planet with reduced carbon in our atmosphere.

And with your purchase, we'll give you a Carbon Neutral Floor Certificate acknowledging the amount of carbon offsets you've helped retire from the atmosphere.

Reclamation Programs
As your partner, we can help you navigate options for removal and disposal of your flooring. From our ReEntry™ program, which recycles Interface carpet tile and Sound Choice™ LVT, to our Construction Waste Take-Back Program for the reuse and down-cycling of nora, you can make strides towards your sustainability goals.
