Palette Two | Tropical Jungle | 16
Palette Three | Mountain Desert | 28
Palette Four | Sea Shore | 40

Why Modular Flooring | 52
Glacial Terrain.
Tropical Jungle.
Mountain Desert.
Sea Shore.

In this third edition of focused palettes, we are contemplating four unique landscapes and the color stories they inspire. We've selected more than 40 different styles from our library, ready to transform your lobbies, corridors and guest rooms.

Explore the possibilities.
PRODUCT: Cloud Cover™
SIZE: 90cm x 90cm
INSTALLATION: Non-Directional
COLOR: Dark Sky
Abstract, exquisite forms. Water everywhere. Fluid or frozen and bright, reflecting the sea and the sky.

</table>
Grays in full bloom. Warm and dark, cool and reflective. Only the watery-blues remind us we are still on Earth.
Steamy and lush with lingering floral scents. We are lost among the flora and fauna, following the flickers of sunlight through the shade of the jungle canopy.
TROPICAL JUNGLE PRODUCTS

13 PRODUCT: CE173
SIZE: 25cm x 1m
COLOR: Kabuki

</table>
Every neutral. Shadow hues, almost black, brown and raisin. Then violet.
A FLOR PRODUCT: Tuxedo Pocket™
SIZE: 50cm x 50cm
COLOR: Lichen
INSTALLATION: Monolithic

B PRODUCT: Natural Woodgrains
SIZE: 25cm x 1m
COLOR: Storm
INSTALLATION: Ashlar
Interface/Architecture. FOCUSED PALETTES VOL. THREE.
Driftwood, salt spray, and shells. In a nearly monochromatic realm, textures and sounds and scents emerge to animate the experience.
Light and warm mixed with sand and seafoam. Hues are blended, then one dark line, like a horizon.
WHY MODULAR FLOORING?

**Flexibility**

*Keep Your Floor Beautiful.* Modular flooring allows you to play with pattern and design without having to special order sizes. And the same flexibility that lets you create your floor helps you keep it looking good because in-house staff can easily replace individual tiles that become damaged or heavily soiled—no down time or outside contractors required.

**TacTiles®**

*No Glue Installation.* Our revolutionary TacTiles installation system eliminates the need for glue, adhering carpet tiles securely together to form a floor that “floats” for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives.

**Intersept®**

*Mold Protection.* Our proprietary preservative, Intersept, protects our modular carpet against mold growth and odor-causing bacteria — guaranteed. Intersept treated carpet, with proper maintenance, shows no mold or bacterial growth when tested per the ASTM E2471 Standard Test Method. Intersept is EPA approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde.

**Less Waste**

*Save Money.* Interface Hospitality’s modular flooring averages just 3.9% installation waste compared to as much as 18% or more with patterned roll carpet. Use our non directional styles with an average of 1.5% waste and save even more. That means more of your flooring investment stays on the floor—not in a dumpster.

**Sustainable Choice**

*Environmental Responsibility.* Interface was the industry’s first to earn an EPD (Environmental Product Declaration), which evaluates consistent factors based on full lifecycle assessment (LCA). In addition, all of our products with GlasBac® and GlasBacRE backings meet NSF/ANSI 140 Sustainable Assessment for Carpet.

**Carbon Neutral Floors™**

*Create a Climate Fit for Life.* All Interface flooring sold globally is third party verified carbon neutral. We’ve taken a holistic approach to achieve carbon neutrality, first through reducing the carbon footprint of our products and then using carbon offsets for the remainder, including the emissions from raw materials, our manufacturing processes and product use to end of life.

**CushionBac Renew™**

*Get Comfortable.* Enjoy greater comfort underfoot and improved acoustics with our high performance CushionBac Renew backing. The 21 oz. felt cushion provides less resistance to footfalls and increased sound absorption to create a more comfortable environment overall. As one of our low carbon options, CushionBac Renew also offers a total product recycled content of up to 76% (up to 25% post-consumer content), and can be recycled into our GlasBac®RE backing.
