CASEBOOK

UK | IRELAND | MIDDLE EAST

MADE FOR MORE™

MADE FOR MORE™

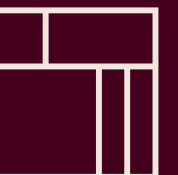

MORE THAN SURFACE. BUILT FOR IMPACT.

This is flooring designed to do more — supporting performance, reducing impact, and helping create spaces that work better for the people who use them.

The projects in this casebook show what that looks like in practice. Using carpet tile, LVT and nora® rubber flooring, each space is shaped around real needs, real challenges and real outcomes.

Created in collaboration with designers, they demonstrate what's possible when performance, design and sustainability come together.

SHOWROOMS

LONDON

BIRMINGHAM

FROM CONCEPT TO COMPLETION. SUPPORTED AT EVERY STEP.

We work with you from initial ideas through to final delivery - helping shape the right flooring solutions for your project.

Our showrooms bring the portfolio together in one place, giving you space to explore the collection and speak directly with our experts. It's where ideas develop, decisions take shape, and the right solution comes together.

WE'RE

'all in'

ON SOLVING THE
CLIMATE CRISIS

Science-based targets by 2030.
Carbon negative by 2040.

That's where we're headed.

How will we get there? By doubling down on direct carbon reductions, not offsets, to meet the urgency of the climate crisis. And by repurposing former offset investments into projects that accelerate carbon reduction and storage.
