Welcome to beautiful, modular flooring design.
Welcome to Interface Hospitality

You welcome people every day, from all over the world. People who want the perfect experience. It’s what makes hospitality both demanding and rewarding.

At Interface Hospitality we understand how a great product can make an experience more enjoyable. We also know a great product can make all the difference in running a successful business.

Using our extensive collection of modular flooring, you can create your unique environments, mixing texture, colour and pattern to create spaces your guests will love to be in.

Whatever your requirements, from first ideas to installation, Interface Hospitality is dedicated to realising your vision. Making it easier for you to provide your guests with an amazing experience.
Welcome to beautiful, modular flooring design.

Mod Café

The starburst pattern of this rug evokes dreamy images of outer space and shining stars. This mid-century style looks right at home in any space.
Sampa

A park is truly the most explicit example of our desire to engage with nature, designing natural settings out of natural elements to recreate the perspective and experience of native landscapes. Sampa brings the park inside with elegant, organic lines, referencing branches, fissures in stone and the veins in a leaf.
City of Angels

Inspired by the artwork from Agnes Martin, City of Angels is a repetition of short lines loosely formed into a pattern — sometimes stippled, sometimes shifting — to create an abstraction of the grid and a hand-drawn effect.
A Cut Above M0833

A rich bold patterned surface and lots of colour. The tip sheared face provides luxurious texture.
Head Over Heels

Head Over Heels, a stunningly beautiful collection of bold textured patterns made to inspire.

Hydropolis

Liquid swirls overlaid with lines of static interference. Matched by a boldness of colour: a vivid palette creates a futuristic rainbow.
Beautiful Luxury Vinyl Tile flooring that performs.

We’ve designed our LVT and Carpet Tiles to work together seamlessly – with no transition strips. This effortless meeting of hard surfaces, soft textures, endless pattern and colour combinations allows you to create stunning flooring designs.

Together with Interface’s truly unique offering of products and services, you’ll have everything you need to meet your next design challenge and create spaces people love to be in.

Our LVT designs come with our superior Sound Choice™ backing. So even hard floors can minimise noise, making it easier for you to create spaces for concentration and focus. And as with all Interface flooring, all our products are carbon neutral with Carbon Neutral Floors™.
Iridescence

Iridescence is inspired by the use of mineral and organic pigments that layer to create diverse hues and abstract painted surfaces. Colours merge with one another in a soft smoky transition that brings a comforting tranquillity to the interior space. The palette encompasses a multitude of colours that excite and inspire.
Level Set® Collection

Level Set features 4 types of patterns in a total of 36 colourways: Natural and Textured Woodgrains in the 25 x 100 cm Skinny Planks format, and Stones and Pattern in the 50 x 50 cm square format. The look and feel of the wood patterns ranges from glossy to distressed, while the stone patterns fill the spectrum from subdued to outspoken. Hard and soft tiles come together to create beautiful design options, creating a new world of integrated flooring choices that make contemporary interiors come to life.

Luxury Vinyl Tile Collections
Look Both Ways™ Collection

Look Both Ways is a collection of LVT and carpet tile patterns combining Zen-like purity with playfulness. Marrying purpose and function with your intention, these styles create landscapes that perform and delight in infinite ways.

Walk of Life, the bedrock of the LVT collection, is gritty, not polished. Sharing the same urban grey palette, Walk the Aisle sparkles with a luminescent fleck that energizes the surface. Walk About appears carved in ways that conjure pattern-love from the 1920s, 1980s, and today. And finally Walk on By is a vision of pure joy in brights & neutrals. Step, walk or run, but definitely look both ways for design inspiration.
Walk On By

Walk the Aisle

Luxury Vinyl Tile Collections
Everyone aspires to individuality.

Why should this claim stop at the floor covering?

Our two product lines norament® and noraplan® form a perfectly practical synthesis of design, functionality, and environmental compatibility. We are therefore convinced that we can offer our customers the perfect solution for every need and creative idea.
norament® 926 castello

A warm, acoustic-improving alternative to natural stone was the inspiration behind this resilient rubber flooring. Eight timeless subtle, marbled colours with a slightly structured two-tone surface offer you a range that is sure to complement any building from modern to historical, adding a highly representative look.
In modern design and architecture, inspiring ideas often derive from authentic, original elements. Highly creative workspaces of today often prefer referencing the industrial past. norament 926 kivo is the flooring that perfectly resonates with this modern classic atmosphere.
norament® 926 pado

norament 926 pado is a vivid granular design inspired by ancient terrazzo with a slightly structured two-tone surface in various designs. Choose from neutral and elegant or colourful and contrasting to create a unique floor aesthetic.
Stairtread norament® 926
One-coloured with classic round pastille for extremely heavy-traffic stairwell areas. Improves footfall sound absorption by 12 dB.

Stairtread norament® 926 arago
Flat, direction-oriented relief structure with fine grain design and modern marbling for extremely heavy-traffic stairwell areas. Improves footfall sound absorption by 12 dB.
noraplan® linee

The rubber flooring with its directionally orientated line structure focuses on restrained colours to achieve a purist look. With four shades of grey and four understated colours, it offers you the right option for any environment. Combined with the structured surface, the lineation in light and dark gradations of the base colour gives rooms an additional perspective.
When soft rubber and solid granite unite, something astonishing is made. Real granite chips embedded in a high-quality rubber floor covering create fascinating visual depth. This fusion of opposites results in a timeless and extremely appealing design that will give your project a distinctive character. Unique like the stars in the night sky.
Why Our Modular Carpet Tiles?

With modular flooring, you can mark out distinct areas to highlight architectural features or reveal subtle surface details. Flooring becomes an adaptable part of your interior finishes. And it’s entirely practical:

Better Acoustics

Hush disturbing footsteps and loud conversations. With our flooring, you get softer-feeling and greater noise reduction. You and your guests can be assured that noise reduction aspects are integrated across our product lines.

Easy to Maintain

Our carpet tiles are made with solution-dyed nylon to keep their colour over time, even when harsh cleaning products are used.

Less Waste

Installing a broadloom carpet creates up to 15% waste. We reduce that to 3 or 4%, and even less if using our non-directional products.

Choose flooring that respects the planet

All our products are carbon neutral. And because we know your flooring’s impact, we can help with your carbon emission goals. We’ll make sure the carbon impact of your flooring is offset – at no extra cost to you. And you’ll receive a certificate to show guests you’ve chosen Carbon Neutral Floors™.
Why Our Modular Resilient LVT?

Integrated System
Say goodbye to transition strips and doubling up. Our modular resilient floorings are made to work as a system with our modular carpet tile. The compatible size and height of our products allows you to integrate modular carpet for an inset rug or an adjacent field – no transition strip required. You’ll avoid doubling up on materials and save cost.

Real Flexibility
Create a unique look that lasts. Interface modular resilient LVT makes it easy to extend the life of your floor. From simple maintenance like damp mopping to selectively replacing damaged tiles, your flooring investment will stand the test of time - beautifully and effortlessly.

Circular System
Keep flooring out of the landfill. Our modular resilient LVT is produced with a controlled material stream so it can be reclaimed and recycled into our GlasBac™RE recycled content backing through our ReEntry™ program. All our LVT products contain 39% recycled content, and are carbon neutral across their full product life cycle.

Noise Reduction
Less distractions. Interface is helping create +Positive spaces™ with our LVT with Sound Choice™ backing, offering you best-in-class performance for reduced impact sound and floor to floor sound transmission.
High durability

Establish an environment that can stand up to heavy traffic, rolling loads, and years of use. Wear-resistant nora rubber is manufactured for elasticity and density, providing a premium flooring solution that delivers reliable value year after year. In some settings, nora floor coverings have been on the job for more than 30 years and still maintain a flawless appearance. Save yourself unnecessary renovation work and make your spaces enduringly usable and sustainable.

Permanent resilience

Create a pleasant and comfortable working environment. With the added cushioning of our rubber, every step you take is supported by excellent ergonomics and comfort underfoot. That's because nora is made of resilient material that eases the stress of walking and standing. That means less fatigue, and enhanced health.

Individualization with inlays or custom colours

Elevate your space. Floorings have an enormous impact on the interior and give rooms personality and life. With our rubber inlays, you have limitless room to individualize the flooring design. Or create your very own personal shade through a custom colour to accentuate the surfaces of your project.

Easy maintenance

Maintain a beautiful appearance. Our nora floor coverings convince with their excellent surface properties that ensure an economical and ecological cleaning process. The long-lasting and waterproof rubber facilitates the daily cleaning procedures ensuring an excellent impression day after day.

### Carpet Technical Specifications

**Decibel**
- **Product Definition**: Tapestry Tufted Patterned Structured Loop Tile
- **Pile Material**: 100% Recycled Solution Dyed Nylon
- **Pile Yarn Weight**: 194 g/m² ± 5%
- **Total Weight**: 4016 g/m² ± 5%
- **Pile Height**: 3.2 mm +15% / -10%
- **Total Thickness**: 7.0 mm ± 0.5 mm
- **Gauge / ends per 10 cm**: 39.4
- **Tuft per m²**: 143,908 ± 5%
- **Backing Type**: CQuest™Bio
- **Style**: 9275
- **Tile Size**: 25 x 100cm
- **Tiles per box**: 20
- **Recycled Content**: 83.6%
- **Carbon Footprint**: 3.12 kg CO₂
- **COC**: CO600 – CPR – 0181

**Darning**
- **Product Definition**: Tapestry Tufted Patterned Structured Loop Tile

LVT Product Specifications

Product Definition
High Performance Luxury Vinyl Tile Contains 39\% Pre-Consumer Recycled Content

Finish
Ceramor™ - UV Stabilized Ceramic Bead Coating

Wear Layer Thickness
0.55 mm (EN ISO 24340)

Total Weight
9680 g/m² (EN ISO 24348)

Total Thickness
4.5 mm (EN ISO 24348)

Backing Type
Sound Choice™ Acoustic Backing

Wear Classification
EN ISO 13874:2011 Heavy Commercial

Radiant Panel
Euroba (EN 13501)

Dimensional Stability
≤ 0.25% (ISO 23996)

Curving
≤ 2 mm (ISO 23996)

Flexibility
Method A - Pass (EN ISO 24344)

Abrasion Resistance
Group T (EN 660-2)

Residual Indentation
≤ 0.2 mm (EN ISO 23443-1)

Chemical Resistance
(EN ISO 26987) Very Good

Impact Sound Insulation (∆Lw)
16 dB (EN ISO 10140-3)

Determination of Anti-Slip
R10 (unless mentioned in the table above)

Pendulum Dry 45
36 + Low slip potential (BS 7976-2)

Interface European Manufacturing B.V.
Industrielaan 15
3925 BD Scherpenzeel
The Netherlands
DOP PBRG – AHCK3R
EN 14041:2004
Approved Body - 0321
Resilient floor covering for internal use.
Classification  Class 33/42 (EN ISO 10874)
Reaction to fire Class Bfl-s1 (see EN 14041, clause 4.1)
Slip resistance Class DS  (See EN 14041, clause 4.5)
Formaldehyde E1 (see EN 14041, clause 4.3)
Anti-static                <2.0kV (See EN14041, clause 4.6.1)
