WORKBOOK

2025/26

MADE FOR MORE™

WE'RE MADE FOR MORE

It's flooring—and then some.

Because every floor is made to do more, mean more, for more. With countless colors, textures, patterns, and ways for you to create remarkable spaces.

Every Interface carpet tile, LVT and nora rubber floor is made with purpose and without compromise, to do all kinds of good.

SHAPE YOUR SPACE WITH OUR EXPERTS

A human-focused, tailor-made, design service.

No two projects are alike – every space has its own challenges that must be addressed in order to create truly beautiful design. However, creative floor designs can be a really impactful way to bring a design vision to life.

Interface Design Studio can support you in finding beautiful, flooring solutions to help achieve your project requirements within your allocated budget.

All the support we offer is bespoke to the project and the designer, which can include creating custom colours, products or mood boards. We can get involved in just a single phase of the process or offer design support from start to finish.

Try our floor design tool

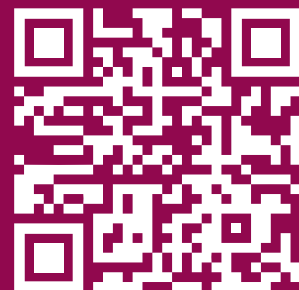

INTERSEPT®

While it's not possible to prevent the dirt and spills that are an inevitable part of life, Interface has a way to reduce their negative impact.

Intersept® protects Interface carpet tile against a broad spectrum of moulds, mildew, bacteria and odour-causing microorganisms. It's especially effective at inhibiting bacterial and mould growth where carpet edges meet.

i2®

For more flexibility —blend, don't match.

Take modularity to a new level. i2 carpet tiles mimic nature's approach to variation with tiles that blend effortlessly, rather than match exactly.

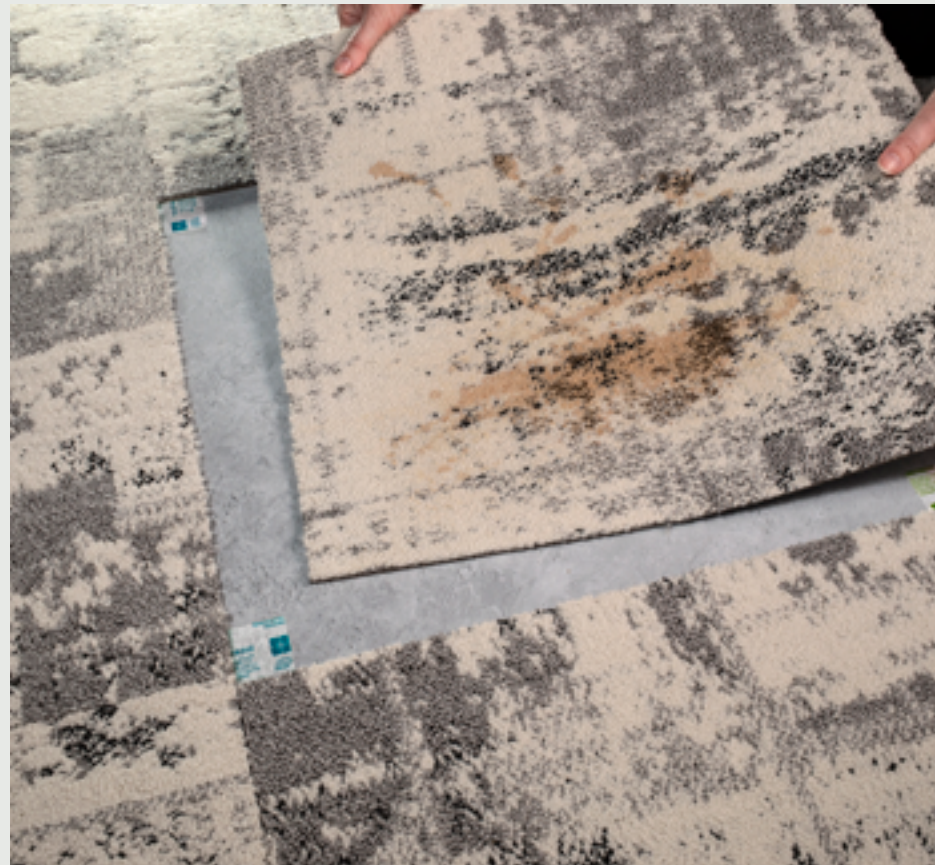

Every tile is varied, and every install is unique, reflecting the wonderful randomness of nature.

TacTiles®

GLUE-FREE CARPET TILE INSTALLATION

TacTiles®. Easy. Quick. Clean.

The combination of simplicity, speed and great environmental qualities make TacTiles the perfect fit for Interface carpet tiles.

Inspired by the gecko's ability to seemingly "stick" to surfaces, TacTiles connect the carpet tiles to each other, creating a 'floating floor' that doesn't shrink or expand. That's how we eliminate the need for glue. No damage to the subfloor and no sticky mess during the installation.

TacTiles make carpet tile installation easy, quick and clean.

MADE FOR *circularity*

Scan or click
to find out more

A new home for your used floor.

Interface takes your used carpet tiles and puts them to good use – by making sure they get reused by small businesses driving the circular approach or charities and community groups to benefits those who really need it. Plus our products are designed to be fully recyclable, to make new carpet tiles for the future. Nothing goes to landfill.

It's part of our commitment to working in a way that's better for the planet and everyone. For over 25 years, our pursuit of sustainability has motivated our every choice. Globally, we prevent millions of metres of carpet going to landfill every year.

WE'RE *'all in'* ON SOLVING THE CLIMATE CRISIS

Carbon negative carpet tile, launched in 2020, changed everything for Interface. We now know it's possible to store more carbon than we emit.

So we are challenging ourselves and others to become carbon negative, enterprise-wide, without offsets. We've set an incredibly bold and ambitious goal to be carbon negative by 2040, with science based targets set as a 2030 stepping stone on our path.

But our plan is simple. We will continue to avoid, reduce and store as much carbon as we can. And we will inspire others so that we can create a ripple effect for an even greater positive impact.

nora® Rubber Flooring

HIGH-QUALITY RUBBER FLOOR COVERINGS

Scan or click to find out more

Floor coverings with expertise in sustainability, functionality and design.

nora® floor coverings are made of high-quality natural and industrial rubber. They are mixed with minerals from natural sources and other components, such as colour pigments, pulled into blanks, pressed and then vulcanized under heat and high pressure.

Due to the special properties of rubber, norament and noraplan floor coverings don't require phthalate plasticisers and don't need to be coated. In addition, nora® floor coverings are slip resistant and highly flame retardant (acc. to EN 13501), exhibit outstanding ergonomic properties and absorb footfall sounds. They retain their unique functionality and aesthetics for decades.

The floor coverings are rounded off by an unparalleled range of accessories and an outstanding service for a design that is both harmonious and cross-functional - across all surfaces, stairs and levels.

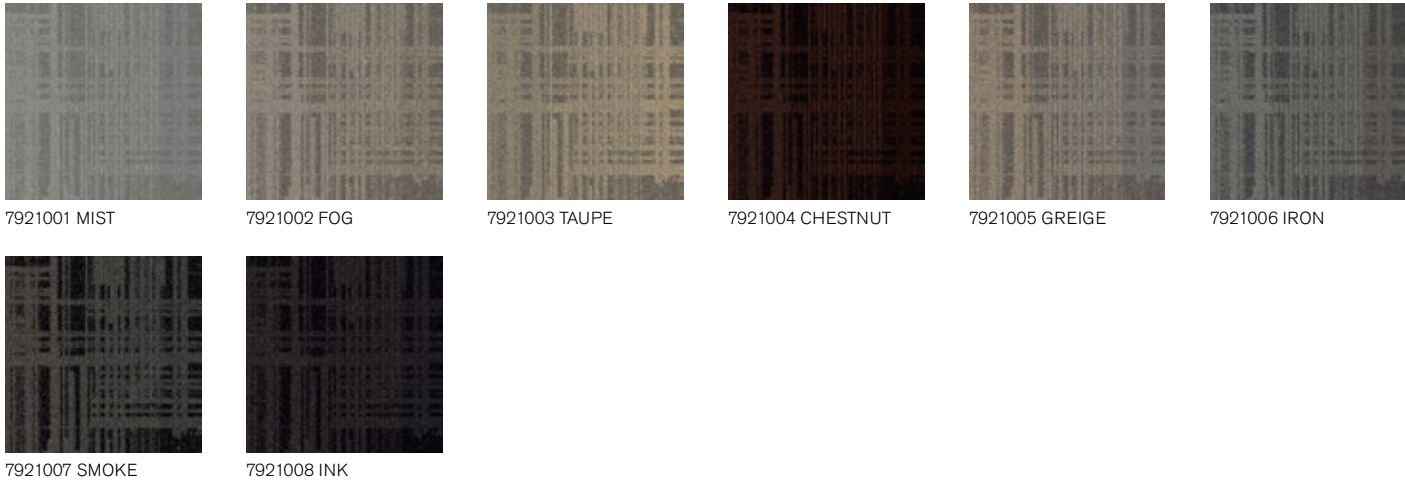

CARPET TILE COLLECTIONS

PRODUCTS SANDBANK, SHALLOWS & UNDULATING WATER COLOUR FRESHWATER INSTALLED HERRINGBONE

Aerial Collection | AE310

Style Code	7921
Product Construction	Tufted Textured Loop
Yarn System	100% Recycled Solution Dyed Nylon
Machine Gauge	1/12
Pile Thickness	2.5 ± 0.5mm
Total Thickness	6.0 ± 0.5mm
Tile Size	50 x 50cm
Area of Use	Commercial Heavy Use
Lifetime Antimicrobial	Intersept®

LVT COLLECTIONS

PRODUCT NORTHERN GRAIN COLOUR DARK WASH INSTALLED HERRINGBONE

Integrated System

Say goodbye to transition strips and doubling up. Our modular resilient floorings are made to work as a system with our modular carpet tile. The compatible size and height of our products allow you to integrate modular carpet for an inset rug or an adjacent field – no transition strip required. You'll avoid doubling up on materials and save cost.

Easy Maintenance

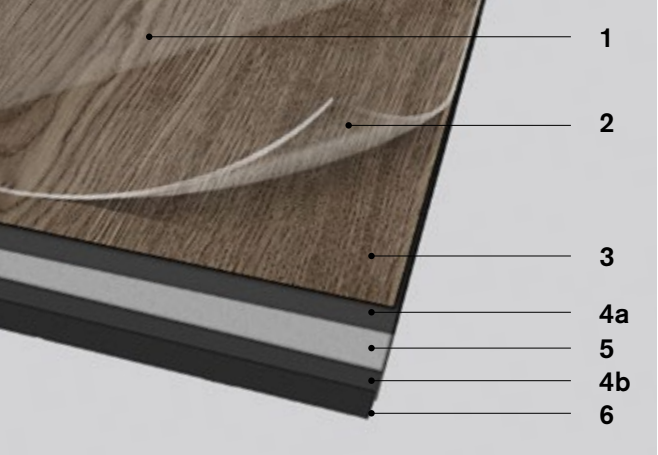

Create a unique look that lasts. Interface Sound Choice LVT extends the life of your floor. From simple maintenance like damp mopping to selectively replacing damaged tiles, your flooring investment will stand the test of time - beautifully and effortlessly.

Noise Reduction

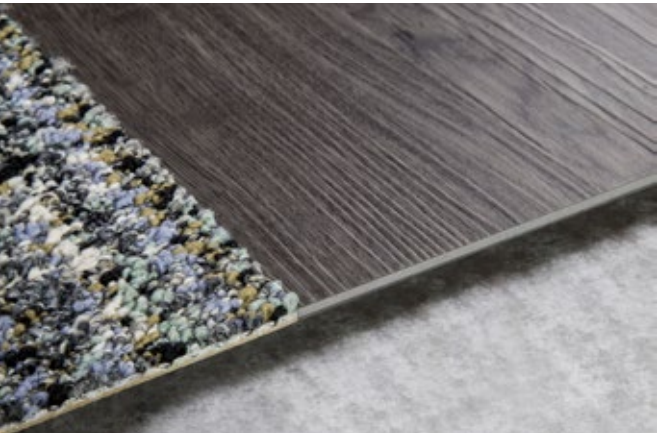

Less distractions. Sound Choice is a specially formulated backing for superior noise reduction, offering high levels of impact sound reduction.

High Performance from Top to Bottom

- 1. **Ceramor™ Coating.** Minimizes everyday scratching and scuffing.
or
Ceramor™+ Coating. Minimizes everyday scratching and scuffing and also provides enhanced slip resistance.
- 2. **Wear Layer.** High quality layer enabling 15 years of resilience and performance.
- 3. **Print Film.** Provides outstanding visuals of natural materials and Interface innovative designs.
- 4. **Core Sheet.** Creates thickness for a stronger core and reduces telegraphing from beneath.
- 5. **Fiberglass.** Adds dimensional stability and controlled flexibility.
- 7. **Sound Choice™ Backing.** Provides comfort and superior acoustic performance.

Interface Sound Choice LVT and carpet tile allow you to seamlessly move from hard to soft surfaces. No transition strip needed.

Environmental Product Declaration (EPD)

Interface LVT products are covered by an EPD. An EPD provides a comprehensive statement of product ingredients and environmental impacts based upon life cycle assessment performed to ISO standards.

GREENGUARD Gold & FloorScore®

Meeting the highest standards for indoor air quality and assuring very low emissions of VOCs, Interface LVT is GREENGUARD Gold and FloorScore® Certified and CDPH 01350 compliant.

NSF/ANSI 332 Silver

This standard evaluates the environmental impact of resilient floor covering for its entire life cycle.

Global GreenTag GreenRate - Level A

Global GreenTag's GreenRate certification is a product rating system recognised by the Green Building Council of Australia and Green Building Council of New Zealand. Its assessment scheme aligns to the Green Star® Responsible Products program. All Interface products are certified "Level A".

Best Practice Guidelines for PVC

Our product proudly holds the Best Environmental Practice (BEP) PVC certification, a recognition of compliance with stringent environmental and social criteria in PVC manufacturing. This certification is a key contributor to Green Star certification, aligning with the GBCA's Responsible Products Framework. Our commitment to BEP guidelines demonstrates our dedication to environmental responsibility and product excellence.

Our EPDs and certifications contribute credits towards Green Building Council's Green Star® Responsible Products program.

Green Star is the Green Building Council of Australia's sustainability rating system for the built environment. It is used to rate new and existing buildings, new fit-outs, and new precinct developments. The Green Building Council of Australia recognises Responsible Products that may contribute to a Green Star rating through its Responsible Credits.

We have tried our very best to accurately represent product colours. However, due to the nature of printed materials, colour of actual products may vary slightly. Please request a sample to see actual product colour.

Production specifications are subject to normal manufacturing tolerances and may be changed without notice. Slight variation in colour among different production lots are normal and should be considered in the overall installation plan. Products covered by manufacturer’s written warranty only. All other warranties, including without limitation any implied warranties of merchantability of fitness for particular purpose, are hereby disclaimed. Contact your representative for written warranty information.
