

REENTRY®

lay it. love it. lift it.

We love our products, and we know our customers do, too. When spaces turn over, our product usually has a lot of love left to give.

One of our earliest sustainability promises to our customers was to take responsibility for our product throughout its lifecycle.

That means we think about the impact from material choice to maintenance to end of use. It's why ReEntry was established.

Help us find a next life for old carpet tile and LVT with ReEntry.

WE HAVE BEEN BUILDING THE CIRCULAR ECONOMY SINCE 1995, WHICH IS WHY:

- We will take back anything we've ever sold and keep it out of landfills.
- 48% of our raw materials come from recycled sources globally.
- Our standard carpet tile products contain both post-consumer yarn and backing material.
- We provide the only 3rd party certified Closed Loop carpet tiles in the US.
- We have the lowest footprint products in the industry.

IMPACT OF REENTRY

(Global 2016-2024)

84.5M pounds of post-consumer carpet:

12%
REUSED WITH
LOCAL PARTNERS

57%
RECYCLED IN
OUR PROCESSES

3%
RECYCLED BY
OTHERS

29%
SENT TO
WASTE-TO-ENERGY

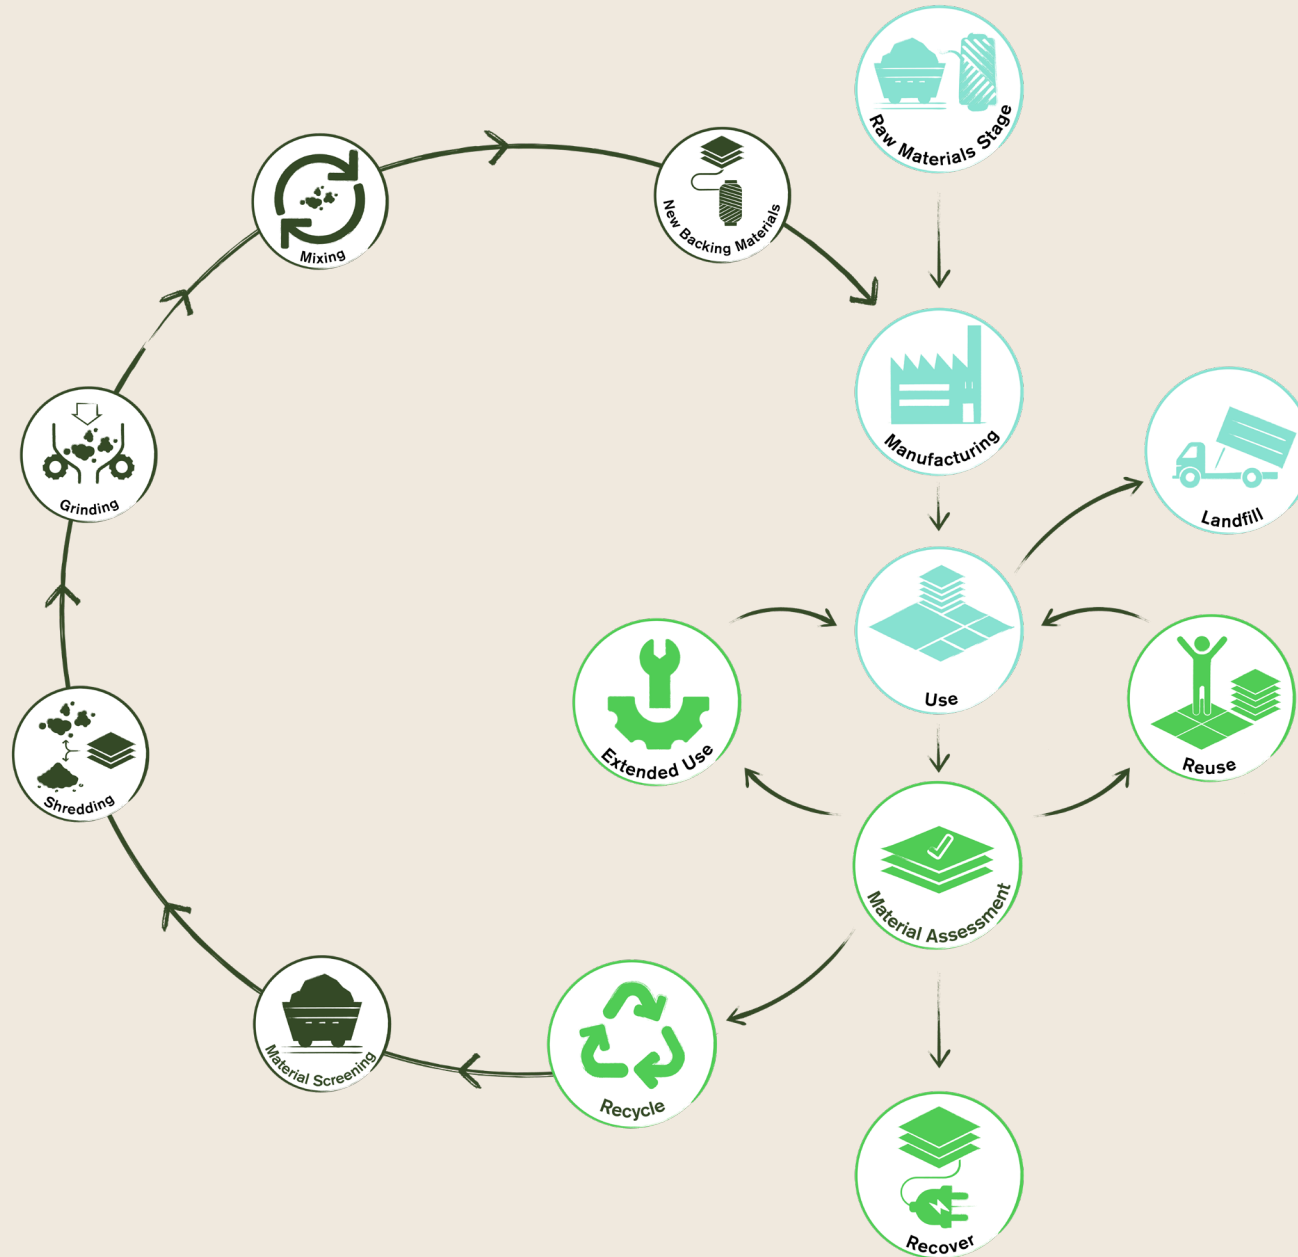

HOW REENTRY *works*

RECYCLING –

We want to close the loop and recycle old product into new.

- Screening for chemical contaminants
- Shredding and separation
- Grinding
- Mixing recycled material with other backing ingredients
- Manufacturing

REUSE –

Lots of spaces need high quality flooring and don't need it to be new. Let us find find your flooring a new home.

Tip: Look for local partners in your area with resources like the [All for Reuse Ecosystem Map](#)

RECOVER –

If the material isn't ready to live another life on the floor, and we can't close the loop, we'll send it to a waste to energy partner.

HELP US KEEP MATERIAL *in the loop*

We've been recycling old carpet tile into new product for over 20 years, and we know how to close the loop. We need your help to get old product back so we can give it another life—as new product or just in a new home—and keep it from languishing in a landfill.

HELP YOUR FLOORING LIVE ITS BEST, LONGEST LIFE

Extended Use: Our experts are standing by to help!
