

Interface Carbon Offsets

(2018 - April 2024)

Interface used carbon offsets to support our Carbon Neutral Floors™ program (2018 – April 2024) and Carbon Neutral Enterprise certification (2021 – April 2024).

Through Carbon Neutral Floors, all the flooring products that we sold – carpet tile, LVT, vinyl sheet and rubber – were carbon neutral across their full lifecycle. To compensate for the full life cycle carbon emissions that we were unable to eliminate, we purchased carbon offsets.

In selecting offset projects, Interface sourced offsets only from projects that met third-party verified carbon offset standards such as the Gold Standard (GS), the California Climate Action Reserve (CAR), the American Carbon Standard (ACR), or the Verified Carbon Standard (VCS) with some projects having additional certifications such as the Climate, Community & Biodiversity Standard (CCB). This assured that the carbon credits we used were real (had happened), additional (beyond business-as-usual activities), measurable and permanent. The quantity and retirement of offsets were verified under our third-party verification for Carbon Neutral Floors and Carbon Neutral Enterprise on an annual basis.

Carbon Offsets Retired in 2018-2022

Project Name	ID	Supplier	Location	Registry	Removal/ Avoidance	Type	Protocol	Standard
Improved Cookstoves for Social Impact in Ugandan Communities	447	First Climate	Uganda	Gold Standard	Avoidance	Cookstoves/ Clean Water	GS-VVM	GS
ACRE (Advanced Carbon Restored Ecosystem)	114	GreenTrees	US	ACR	Removal	Forestry	ACR v2.1	ACR
Gyapa Improved Stoves in Ghana	407	Climate Care	Ghana	Gold Standard	Avoidance	Cookstoves/ Clean Water	GS-VVM	GS
Frances Beidler Improved Forest Management	683	Blue Source	US	CAR	Avoidance	Forestry	V3.1	CAR
Alligator River Avoided Conversion	497	Blue Source	US	CAR	Avoidance	Forestry	V3.1	CAR
Wind Based Power Generation by Mytrah Energy	1728	Carbon Footprint	India	Verra	Avoidance	Renewable Energy	ACM0002	VCS
Solar Grouped project by ACME Group	1580	CFS	India	Verra	Avoidance	Renewable Energy	ACM0002	VCS
Siam Cement Biomass Project	403	South Pole	Thailand	Verra	Avoidance	Biomass	ACM0003	VCS

Interface Carbon Offsets

(2018 - April 2024)

Carbon Offsets Retired in 2018-2022								
Project Name	ID	Supplier	Location	Registry	Removal/ Avoidance	Type	Protocol	Standard
Efficient Cook Stove Programme: Kenya CPA	941	Carbon Footprint	Kenya	Verra	Avoidance	Cookstoves/ Clean Water	AMS-II.G.	VCS
Small Scale Hydro Project Sahanivotry in Madagascar	1319	First Climate	Madagascar	Verra	Avoidance	Renewable Energy	ACM0002	VCS
Nouakchott 30 MW Wind Power Plant	1733	CFS	Mauritania	Verra	Avoidance	Renewable Energy	ACM0002	VCS
Kasigau Corridor REDD+ Project - Phase II The Community Ranches	612	CFS	Kenya	Verra	Avoidance	Forestry	VM0009	VCS + CCB
Kariba REDD+ Project	902	CFS	Zimbabwe	Verra	Avoidance	Forestry	VM0009	VCS + CCB
